

## B2B-Solution-Architect Dumps

### Salesforce Certified B2B Solution Architect Exam

<https://www.certleader.com/B2B-Solution-Architect-dumps.html>

**NEW QUESTION 1**

SharpField is a fast-growing company that provides SaaS for commercial service providers. SharpField has been acquiring other similar companies and plans to continue to do so for the near future.

After a recent acquisition of a company that also has a Salesforce org, the CIO wants to know the correct path forward on deciding whether to integrate the acquired companies into SharpField's existing landscape.

What should a Solution Architect recommend to the CIO to ensure the correct org strategy for SharpField going forward?

- A. Recommend a single-org strategy and development of strict processes for all acquired companies to follow.
- B. Prioritize migrating the newly acquired company to SharpField's Salesforce org first, then perform an org strategy analysis to assess the Business, Technology, Governance, and Operations requirements for any future acquisitions.
- C. Prioritize completing an in-depth org strategy analysis, focused on the Business, Technology, Governance, and Operations requirements at SharpField.
- D. Recommend a multi-org strategy and development of required integration layers to move the required shared data between instances of any and all acquired Salesforce instances.

**Answer:** D

**NEW QUESTION 2**

Universal Containers (UC) is about to implement Sales Cloud, Service Cloud, and Revenue Cloud within its newly created Salesforce environment. But before UC begins, the CIO would like to understand the options for creating and migrating changes within Salesforce. UC is about to use a sandbox for the initial build and will deploy customisation up to the production environment. UC has decided to build packages of metadata to silo the functionality between the three clouds it is implementing for.

What are two key considerations a Solution Architect should keep in mind when recommending packaging? Choose 2 answers

- A. Design the package as modular, loosely coupled units of metadata rather than large chunks of an org.
- B. Only utilize one functional automation tool (Flow, Workflow Rules, Process Builder) per object.
- C. It is impossible to track source control with package development; either the org owns the source or a source control does, but never both.
- D. Clouds like Revenue Cloud have their own packages so it is easy to work with them because their automation is limited.

**Answer:** AD

**NEW QUESTION 3**

A Solution Architect has been hired to help design and implement a quoting solution for AC Computers on Salesforce to support omni-channel selling. During discovery with the client, the Solution Architect learns AC Computers currently uses spreadsheets to manage its pricing and product catalog, which includes thousands of SKUs with a variety of attributes that determine pricing. The current quoting process is long and tedious because it requires a sales representative to find individual products and manually input that information into Salesforce.

The Sales team complains that they are spending too much time searching for the right product and Product Management is spending too much time trying to manage SKUs. AC Computers wants to move away from manual quoting processes and toward simplifying its product catalog.

Which recommendation should the Solution Architect make given the business requirements?

- A. Work alongside client stakeholders to perform a SKU optimisation; implement Salesforce CPQ product catalog and guided selling.
- B. Work alongside client stakeholders to perform a SKU optimisation; implement Salesforce Order Management and special pricing.
- C. Create Products and Price Books in Salesforce for the current product catalog to streamline future pricing and product catalog management; implement Salesforce CPQ product catalog and guided selling.
- D. Create Products and Price Books in Salesforce for the current product catalog to streamline future pricing and product catalog management; implement Salesforce Order Management and special pricing.

**Answer:** C

**NEW QUESTION 4**

Universal Containers serves customers globally across two businesses. Each business has its own org for managing its sales and support operations. Each line of business also maintains its own reporting systems using both CRM Analytics and Salesforce reports, but the CEO is asking for a unique dashboard that includes the global opportunity pipeline with data from both orgs.

What should a Solution Architect propose?

- A. Use CRM Analytics in the primary org and create a Salesforce External Connectio
- B. Then, create a dataflow to combine data from both orgs.
- C. Use one org as primary and create external objects for the accounts and opportunities of the other one. Then, use standard reports.
- D. Use one org as primary and an ETL tool to synchronize the accounts and opportunities of the other org. Then, use standard reports.
- E. Use CRM Analytics in the primary org and then, in the dashboards, use Salesforce Connect to query the data from the other org.

**Answer:** A

**NEW QUESTION 5**

Universal Containers recently began a project to connect its ERP with Salesforce. One of the requirements is a daily batch process to create and update orders and order product information. The development team, using the corporate ETL tool, has created two processes to create these records using Bulk API. The test in the development environment worked fine, but in the production environment, some order product records were not updated and showed an error "UNABLE\_TO\_LOCK\_ROW:unable to obtain exclusive access to this record". There is one Process Builder on the Order Product object and no async process.

Which two steps should a Solution Architect recommend to avoid this error? Choose 2 answers

- A. Use the import wizard instead of Bulk API.
- B. Sort the order product records by account and order before the Bulk API load.
- C. Change the Bulk API call to use Bulk API 2.0.
- D. Add a retry process for the records rejected by this error.

**Answer:** BC

**NEW QUESTION 6**

Universal Containers (UC) is adding to its existing Salesforce implementation and currently uses Sales Cloud and Service Cloud. UC is looking to add Salesforce Field Service and Experience Cloud to allow its third-party contractors easier access to the data they need and to provide its customers a way to self-service. UC has expressed interest in allowing its customers to be able to self-schedule maintenance work on their Assets. UC wants a solution to display scheduling options for the next month to its customers. What should a Solution Architect consider in a potential solution?

- A. Lightning Web Components Calendar Module
- B. Appointment-Assistant Self Service Scheduling
- C. Salesforce Scheduler
- D. Standard Salesforce Asset Calendar

**Answer: C**

**NEW QUESTION 7**

Universal Containers (UC) is starting to go through an inventory of capabilities in regard to its many data warehouses. UC's data warehouses are currently being provided with data from OMS, ERP, Accounting, and other inventory management systems. Data warehouses are utilized by those systems for storage or analytics purposes.

UC plans to utilize the Systems of Engagement framework to classify its systems based on how they will be utilized within the enterprise architecture. UC would like to understand which systems it should directly integrate with versus utilizing the data warehouses where that data may also be stored.

How should a Solution Architect classify the data warehouses as systems within the enterprise architecture of this scenario?

- A. System of Reference
- B. System of Engagement
- C. System of Intelligence
- D. System of Record

**Answer: D**

**NEW QUESTION 8**

Universal Containers (UC) wants to enhance the online purchase experience for its customers. The product and pricing information is managed in a separate ERP, while customer purchases are primarily triggered online through self-service. UC often offers promotions and discounts through various online seasonal events. UC wants the ability to provide customized quotes based on its relationship with the customer, as well as proactively process and monitor renewal and upgrade opportunities.

A Solution Architect has identified Sales Cloud, CPQ, Billing, and B2B Commerce as part of a potential multi-cloud solution.

Based on the above considerations, which option identifies the optimal data flow for this solution?

- A. Pricing and Product data should be pushed from ERP to B2B Commerce via the CPQ B2B Commerce Connector to CP
- B. Promotions should be handled in B2B Commerce
- C. Invoice and Billing should be maintained in Billing and surfaced on B2B Commerce via a Lightning component.
- D. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- E. Promotions should be managed in CPQ as CPQ is the pricing master
- F. Invoice and Billing should be managed in B2B Commerce and pushed to Billing.
- G. Pricing and Product data should be pushed from ERP to both CPQ and B2B Commerce, keeping single source of truth
- H. Promotions should be handled in B2B Commerce
- I. Invoice and Billing should be maintained in Billing and pushed to B2B Commerce.
- J. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- K. Promotions should be handled in B2B Commerce
- L. Invoice and Billing should be maintained in Billing and presented on B2B Commerce via a Lightning component.

**Answer: A**

**NEW QUESTION 9**

Universal Containers (UC) needs to provide a portal for its customers to order spare parts for the equipment that has been sold to them. Spare parts orders are fulfilled in UC's ERP system and need to be integrated with the solution. Order status would need to be reflected in the solution. Additionally, in the future, UC wants this order integration scaled to additional applications. UC also needs customers to be able to schedule appointments for service for their equipment.

Which products should a Solution Architect recommend implementing to meet these requirements?

- A. B2B Commerce
- B. Salesforce Field Service, Experience Cloud, and MuleSoft
- C. B2B Commerce, Salesforce Field Service, Experience Cloud, and Sales Cloud
- D. B2B Commerce, Service Cloud, Experience Cloud, and Salesforce Connect
- E. B2B Commerce
- F. Salesforce Field Service, Experience Cloud, and MuleSoft

**Answer: D**

**NEW QUESTION 10**

Recently, Universal Containers (UC) successfully launched a multi-cloud B2B implementation with Sales Cloud, Service Cloud, Experience Cloud, and B2B Commerce. As the Sales and Service Cloud development was performed by separate teams, UC created Process Builder automation for the Account object in separate Process Builder processes. As customers go through the sales process within Sales Cloud, the data on their customer account record is updated. As those same customers make purchases within B2B Commerce, the data on their customer account record is updated as well.

What are two reasons why a Solution Architect should recommend uniting these into a single Process Builder process?

Choose 2 answers

- A. Moving them into a single Process Builder process helps to reduce the number of queries and avoid hitting limits on the Account object.
- B. Moving them into a single Process Builder process provides control over the order of the updates and actions triggered on the Account object.
- C. Moving them into a single Process Builder is the only way to ensure a naming convention is followed on the Account object.

D. Moving one of the Process Builders into a flow will remove all automation conflicts on the Account object.

**Answer:** AB

#### NEW QUESTION 10

Universal Containers (UC) currently has Sales Cloud, Revenue Cloud, and Marketing Cloud Account Engagement within its existing Salesforce environment and is utilizing a standard Lead to Cash solution across those clouds. UC is 2 years into its Salesforce implementation, and the CIO is getting concerned with the sheer amount of data affecting its environment's data limits.

IT is doing upkeep on older records that may no longer be relevant. They have decided to start looking at data archival strategies and what to archive correctly. Given that this solution involves Leads from Marketing Cloud Account Engagement, Opportunities from Sales Cloud, and Quotes from Revenue Cloud, they are concerned about archiving related data on active sales pipelines. They also want to keep a historical snapshot of all of their Quotes, Opportunities, and Leads for future pipeline performance purposes and are open to options.

Choose 2 answers

- A. Propose Skinny Tables to the CIO before doing anything else.
- B. Understand the organization's regulatory requirements around right to retain or delete data.
- C. Recommend AppExchange solutions that provide capabilities around data archiving to the CIO.
- D. Segment the data in terms of data needed for daily operations, data that is used occasionally at demand, and data that is used purely for historical purposes.

**Answer:** BD

#### NEW QUESTION 11

Universal Containers (UC) currently utilizes Sales Cloud and Experience Cloud for its customers. For the next phase in its digital transformation, UC would like to enable its vast dealer network with the kinds of tools its direct Sales teams are currently using. UC is considering Partner Communities (PRM) on Experience Cloud. UC's concern at the moment is making sure that its dealer network only gets access to the opportunities they themselves bring to UC or that UC submits to the dealer to close. This is a concern for the VP of direct sales who has issues with bringing PRM in at all.

What is the initial suggestion a Solution Architect should provide to make Partner Communities work for UC?

- A. Create two account lookups on the opportunity, one for dealer and one for partner company, and create sharing rules to share the records.
- B. Create public groups of partner companies and users at dealers, and share the opportunities using sharing rules.
- C. Utilize the external sharing model to differentiate the sharing models between Internal Sales users and External Communities users.
- D. Utilize the same sharing model within the Partner Community that customers are currently using within the Customer Community.

**Answer:** C

#### NEW QUESTION 16

The Northern Trail Outfitters (NTO) sales department currently uses Sales Cloud for its Sales team. The management team decided that the Sales team needs to start creating quotes based on the input from the finance department. NTO would like to implement quotes, contracted pricing, and invoicing for its customers.

Invoicing will be done based on an agreed billing cycle. The finance department would like to see a report on the invoices sent and track the details of the payments received. NTO also has a need for partners to be able to self-service their pipeline and quoting through a portal.

NTO's internal team decided to use Revenue Cloud and Experience Cloud as its solution. What should a Solution Architect recommend as NTO begins its implementation?

- A. Advise the client to start with Experience Cloud.
- B. Select an AppExchange product focused on contract lifecycle management.
- C. Develop an architectural plan to incorporate Revenue Cloud and Experience Cloud.
- D. Advise the client that Revenue Cloud is the starting point.

**Answer:** C

#### NEW QUESTION 20

Universal Containers (UC) is undergoing a full digital transformation and has chosen Salesforce as one of the main components. UC will use Sales Cloud for online activities, CPQ for quote generation and renewals. B2B Commerce for online orders through its partnerships and vendors, an external ERP for fulfillment and invoicing, and Marketing Cloud for customer outreach. UC wants to create fluidity between the entire application landscape, and an integration between systems is required.

The application is expected to be able to generate an order based on any of the channels outlined above, and be utilized in UC's outreach to its customers.

Where should a Solution Architect recommend the system of record (SOR) be for all orders going forward?

- A. In the ERP Order Object
- B. Salesforce Custom Object
- C. Salesforce Order Object
- D. B2B Commerce Order Object

**Answer:** C

#### NEW QUESTION 21

The business model of Universal Containers (UC) puts a strong emphasis on indirect sales and service processes. UC's customers are primarily distributors, resellers, and service providers who either sell or service products independently, or collaborate with UC on joint opportunities and cases. In the past, collaboration was primarily driven through email but UC wants to bring both service and sales collaboration onto one consolidated platform.

Which solution should a Solution Architect recommend to create better collaboration and visibility for UC employees, resellers, and service partners?

- A. Grant access to resellers and partners by providing Sales Cloud licenses and Service Cloud licenses.
- B. Grant access to resellers and partners by providing Partner Community licenses.
- C. Grant access to resellers and partners by providing Customer Community licenses.
- D. Grant access to resellers and partners by providing Customer Community Plus licenses.

**Answer:** B

**NEW QUESTION 25**

AC Computers is launching a new subscription bundle service and plans to primarily sell through direct sales and a website storefront for existing customers. Direct Sales needs the ability to configure complex deals and manage subscription. Existing customers need the ability to initialize a request for additional products and services from the storefront and seamlessly send the request directly to Sales to finalize the quote.

Which three recommendations should a Solution Architect make to meet these business requirements? Choose 3 answers

- A. Salesforce CPQ
- B. Salesforce Order Management
- C. Salesforce Billing
- D. B2B Commerce
- E. CPQ B2B Commerce Connector

**Answer:** ADE

**NEW QUESTION 26**

Universal Export has implemented multiple Salesforce products and has made it clear that it wants to maximize its investment and avoid buying any new products. For the company's next release, its business requirements seem to be a close fit for a product that Salesforce has. out it wants to develop a custom extension that replicates the functionality of that Salesforce module.

Which two actions should a Solution Architect take? Choose 2 answers

- A. Begin requirements gathering for integrations and data migration
- B. Advise the customer to use the out-of-the-box approach to avoid unnecessary technical debt.
- C. Consult with the IT department to review the extension requirements.
- D. Evaluate the business benefit of the requested functionality to see if it justifies investment in the Salesforce product.

**Answer:** BD

**NEW QUESTION 28**

Widgets Wonderful, a manufacturing company, wants to provide a better customer experience and enable field service resources to provide a quote to customers while still on site. The company has complex products that come with warranties that include preventative maintenance work. Additionally, certain warranty repair work has specific SLAs associated with it. There are 10 Field Service team members and 20 sales representatives, all of whom need to view Salesforce Field Service objects and be able to create quotes for the customer.

Widgets Wonderful's project owner has some questions regarding the number and types of licenses needed for the users and would like to better understand how warranties will be addressed.

Which two combined options should a Solution Architect suggest? Choose 2 answers

- A. Salesforce Field Service and Service Cloud for Salesforce CPQ will need to be installed and customizations will need to be made to handle Entitlements.
- B. Purchase 30 CPQ licenses and 10 Salesforce Field Service licenses.
- C. Purchase 30 CPQ licenses and 30 Salesforce Field Service licenses.
- D. Salesforce Field Service, Salesforce CPQ, and Service Cloud for Salesforce CPQ need will need to be installed and customizations will not be needed for Entitlements.

**Answer:** BC

**NEW QUESTION 29**

Universal Containers (UC) delivers packaging solutions to its customers based on volume schedule, which is part of a contract that UC is closing. Customers place orders against these contracts, and the orders are maintained in an ERP system outside of Salesforce.

Employees of UC want to track invoicing payment status on a monthly basis so that they can identify early when customer orders fall short of the contractual target.

Which two solution components should a Solution Architect recommend to meet this requirement? Choose 2 answers

- A. Opportunities and Opportunity Products from Sales Cloud
- B. Product and Revenue Schedules from Sales Cloud
- C. Invoicing payment status sync between Salesforce Billing and ERP
- D. Orders and Order Products from Sales Cloud and a MuleSoft integration with the ERP

**Answer:** AB

**NEW QUESTION 34**

Mask Makers LLC has a traditional sales channel that uses an existing CPQ implementation to process orders. Customers frequently reorder previous purchases quickly and split the order into several deliveries for different locations. Additionally, these customers are given special pricing through Price Books m CPQ based on annual spending and other parameters. The customer currently makes their purchase by sending an email or calling their appointed sales representative, and then waits to receive a quote.

Mask Makers LLC wants to move away from this very manual and time-consuming process. The company wants to provide its customers with a personalized experience that is simplified and streamlined with existing special pricing visible and the option to self-serve- Mask Makers LLC would also like to deliver this within a short timeframe, as business must continue to grow.

Which design approach should a Solution Architect recommend to meet these requirements within the timeframe while adhering to best practices.

- A. Implement B2B Commerce and use the CPQ B26 Commerce Connector to integrate to CP
- B. Set 826 Commerce as the Product and Pricing master.
- C. Implement 626 Commerce and use the CPQ 626 Commerce Connector to integrate to CP
- D. Keep CPQ as the Product and Pricing master.
- E. Implement B26 Commerce and use the CPQ 626 Commerce Connector to integrate to CP
- F. Allow bidirectional updates to Products and Pricing.
- G. Implement B2B Commerce and build a custom integration to CP
- H. Keep CPQ as the Product and Pricing master.

**Answer:** B

**NEW QUESTION 37**

Universal Containers (UC) is about to develop a new call center solution utilizing Salesforce products including Service Cloud, LiveMessage, Experience Cloud, and MuleSoft. UC would prefer no real customer data to be stored within Salesforce but to be made view only. These views should only be utilized by a select few individuals that may be assigned the ability to view this data temporarily and have it removed.

Which two features should a Solution Architect suggest to maintain these constraints?

- A. Apex Callouts, User Permissions Sets
- B. Third-party ETL, Profiles
- C. Salesforce Connect, User Profiles
- D. Salesforce Connect, User Permission Sets

**Answer:** A

**NEW QUESTION 42**

Universal Containers (UC) is evaluating Salesforce for a Lead to Invoice solution, as its current process for getting payments from customers is incredibly laborious. UC knows now its current invoice process runs through its back-office ERP, and is unsure how it would work within a front-office tool going from a lead all the way to an invoice. UC is looking to purchase Revenue Cloud, Sales Cloud, Marketing Cloud Account engagement, and MuleSoft to work with its ERP. The CIO also wants to make sure UC is utilizing the data across these clouds in the most automated way possible without a lot of manual data intervention as is required today within its back-office ERP.

What should the steps in the business process look like when creating a multi-cloud Lead to Invoice solution in Salesforce if UC's ERP will be the system of record for invoices?

- A. Lead, Opportunity, Quote, Order, Invoice, Payment, ERP
- B. Lead, Opportunity, Quote, Order, ERP
- C. Opportunity, Quote
- D. Invoice, Payment, ERP
- E. Lead, Quote, Opportunity, Order, Invoice
- F. ERP, Payment

**Answer:** A
