## Exam Questions C1000-132

IBM Maximo Manage v8.0 Implementation

#### NEW QUESTION 1

Which three coverage options can be included on a contract line in a Warranty Contract? (Choose three.)

- A. Financial Loss
- B. Labor
- C. Children
- D. Shipping
- E. Replacement
- F. Materials

**Answer:** BCF

#### NEW QUESTION 2

What is the default status in the Quick Reporting Application?

- A. INPRG
- B. APPR
- C. DRAFT
- D. ENTERED

**Answer:** A

#### Explanation:

The default status in the Quick Reporting Application in IBM Maximo Manage is DRAFT.

#### NEW QUESTION 3

A Route Stop with an Asset can reference which other type of record?

- A. Service Address
- B. Rotating Item
- C. Inspection Form
- D. Feature

**Answer:** C

#### NEW QUESTION 4

In which Maximo application can Workflow Delegation be set?

- A. People
- B. Person Group
- C. Workflow Administration
- D. Labor

**Answer:** A

#### NEW QUESTION 5

When users are added to multiple security groups, the authorization privileges of the security groups combine, with the exception of security groups with which setting?

- A. Independent
- B. Separate
- C. Autonomous
- D. Discreet

**Answer:** A

#### Explanation:

When users are added to multiple security groups, the authorization privileges of the security groups combine, with the exception of security groups with the "Independent" setting. When a security group has the "Independent" setting, its authorization privileges are applied separately from any other security group that the user belongs to.

#### NEW QUESTION 6

In the Purchase Requisitions application and with default settings, what status does the Purchase Requisition change to when all of its lines have been copied to a Purchase Order or a Contract?

- A. INPRG
- B. COMPLETE
- C. CLOSE
- D. APPR

**Answer:** B

#### Explanation:

In the Purchase Requisitions application with default settings in IBM Maximo Manage, when all lines of a Purchase Requisition have been copied to a Purchase Order or a Contract, the status of the Purchase Requisition changes to COMPLETE.

#### NEW QUESTION 7

What can be done when decommissioning a location that cannot be done when decommissioning an asset?

- A. Roll New Status down to All Assets in All Changed Locations?
- B. Remove All Reference to This Location from All Contracts?
- C. Remove All References to This Location from All Job Plans?
- D. Delete Associated Service Addresses That will be made Redundant?

**Answer:** A

#### Explanation:

When decommissioning a location in IBM Maximo Manage, you can roll the new status down to all assets in all changed locations. This cannot be done when decommissioning an asset.

#### NEW QUESTION 8

Which field on a Work Order is used to only schedule work during working time?

- A. Flow Action Assist
- B. Split Shift
- C. Constrain to Shift
- D. Interruptible

**Answer:** D

#### NEW QUESTION 9

The IoT Connector provides Maximo Manage, Maximo Health and Maximo Predict the ability to connect to which two data sources?

- A. Maximo Spatial
- B. Maximo Assist
- C. IBM Watson IoT Platform
- D. Maximo Safety
- E. Maximo Monitor

**Answer:** CE

#### Explanation:

IoT Connector provides Maximo Manage, Maximo Health and Maximo Predict the ability to connect to C. IBM Watson IoT Platform and E. Maximo Monitor data sources. The IoT Connector in the Administration Work Center can be used to configure a connection to an IoT platform such as IBM Watson IoT Platform and IBM Maximo Asset Monitor1.

#### NEW QUESTION 10

In the Inventory Usage application when the type is TRANSFER, if a user changes the status to COMPLETE what type of transaction record is created?

- A. Transaction Type RETURN in MATUSETRANS table
- B. Transaction Type ISSUE in MATUSETRANS table
- C. Transaction Type SHIPTRANSFER in MATRECTRANS table
- D. Transaction Type TRANSFER in MATRECTRANS table

**Answer:** D

#### Explanation:

<https://maximosecrets.com/2020/07/03/a-summary-of-the-financial-processes-in-inventory-usage/>

#### NEW QUESTION 10

In which application can shift breaks be seen?

- A. Graphical Assignment
- B. Graphical Resource View
- C. Graphical Work Week
- D. Graphical Scheduling

**Answer:** A

#### NEW QUESTION 11

A client has a requirement to manage access permits and risk assessments in Maximo. Which add-on provides this capability?

- A. Maximo Safety
- B. Maximo Health Safety and Environment
- C. Maximo Asset Configuration Manager (ACM)
- D. Maximo Spatial

**Answer:** B

#### NEW QUESTION 16

Which two statuses of a Purchase Order will allow a receipt of new items to be processed in the Receiving application if the Purchase Order is not being revised?

- A. APPR
- B. HOLD
- C. INPRG
- D. REVISD
- E. PNDREV

**Answer:** AC

**Explanation:**

In IBM Maximo Manage, if a Purchase Order is not being revised, two statuses that will allow a receipt of new items to be processed in the Receiving application are APPR and INPRG.

**NEW QUESTION 20**

DRAG DROP

What is the order of operations for creating the GL Account Structure and Chart of Accounts for an Organization?

**Unordered Options**

- 0 Define GL Structure in Database Configuration.
- 0 Create GL Component Codes for Organization.
- 0 Create GL Account Code combinations for Organization
- 0 Apply Database Configuration Changes.

**Ordered Options**

- 0
- 0
- 0
- 0

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

The 01st step is to define the GL Structure in the Database Configuration application, which allows you to specify the segments, lengths, and separators of the GL account code.

The 2nd step is to apply the database configuratin changes, which will create the necessary tables and columns in the database to store the GL account information.

The 3rd step is to create the GL Component Code for the Organization, which allows u to define the value and description for each segment of the GL account code.

The fourth step is to create the GL Account Code combinations for the Organization, which allows you to generate and validate the complete GL account codes based on the component cods.

**NEW QUESTION 22**

Which statement is true regarding Master Preventative Maintenance (PM) records?

- A. Associated PM records can only be created for a rotating item's asset.
- B. Associated PM records can be created for a Master PM which does not have an item
- C. Associated PM records are temporary and expire after 90 days.
- D. Associated PM records can only be created for a rotating item's location.

**Answer:** B

**Explanation:**

Regarding Master Preventative Maintenance (PM) records in IBM Maximo Manage, associated PM records can be created for a Master PM which does not have an item.

**NEW QUESTION 23**

At what database level does a Job Plan exist?

- A. ORG
- B. SYSTEM
- C. SITE
- D. SYSTEMORGSITE

**Answer:** D

**Explanation:**

<https://maximosecrets.com/2022/04/28/job-plans/>

**NEW QUESTION 26**

In the Assets application a used engine needs to be replaced with a rebuilt engine, how might the rebuilt engine inherit the depreciation schedule from the used

engine?

- A. Use the action Exchange Depreciation Schedules.
- B. Use the action Copy Depreciation Schedules.
- C. Use the action Swap Depreciation Schedules.
- D. Use the action Split Depreciation Schedules.

**Answer: C**

**Explanation:**

To replace a used engine with a rebuilt engine in the Assets application in IBM Maximo Manage v8.0 implementation and inherit the depreciation schedule from the used engine, you can use the "Copy Depreciation Schedules" action. This action allows you to copy the depreciation schedules from the old asset to the new asset, including the depreciation terms and any calculation information.

**NEW QUESTION 30**

How can a Master Preventive Maintenance record be associated with multiple non-rotating assets?

- A. Use the Move/Modify Assets action.
- B. Use an Asset Template.
- C. Add the Assets to the Multiple Assets table on the Master Preventive Maintenance record.
- D. Use the Apply Down Hierarchy action on the Master Preventive Maintenance record.

**Answer: B**

**Explanation:**

To associate a Master Preventive Maintenance record with multiple non- rotating assets, we can add the assets to the Multiple Assets table on the Master Preventive Maintenance record. This allows us to associate the preventive maintenance schedule with multiple assets, ensuring that the maintenance activities are performed on each of the associated assets as scheduled.

**NEW QUESTION 32**

In the Item Master application can an item be associated with a meter?

- A. It can be associated with all items.
- B. A meter field can only be associated with rotating items.
- C. It cannot be associated with any item.
- D. A meter field can only be associated with non-rotating items.

**Answer: D**

**NEW QUESTION 34**

A Service Level Agreement is defined at the System level. What is the purpose of the Organization and Site fields?

- A. They are used to filter the SLAs which a user can see based on Security Group Site access.
- B. They are used to filter the SLAs that can be associated with a Contract.
- C. They are used to filter the SLAs that can be included as Related SLAs.
- D. They are used to filter the SLAs that could be applied to the object.

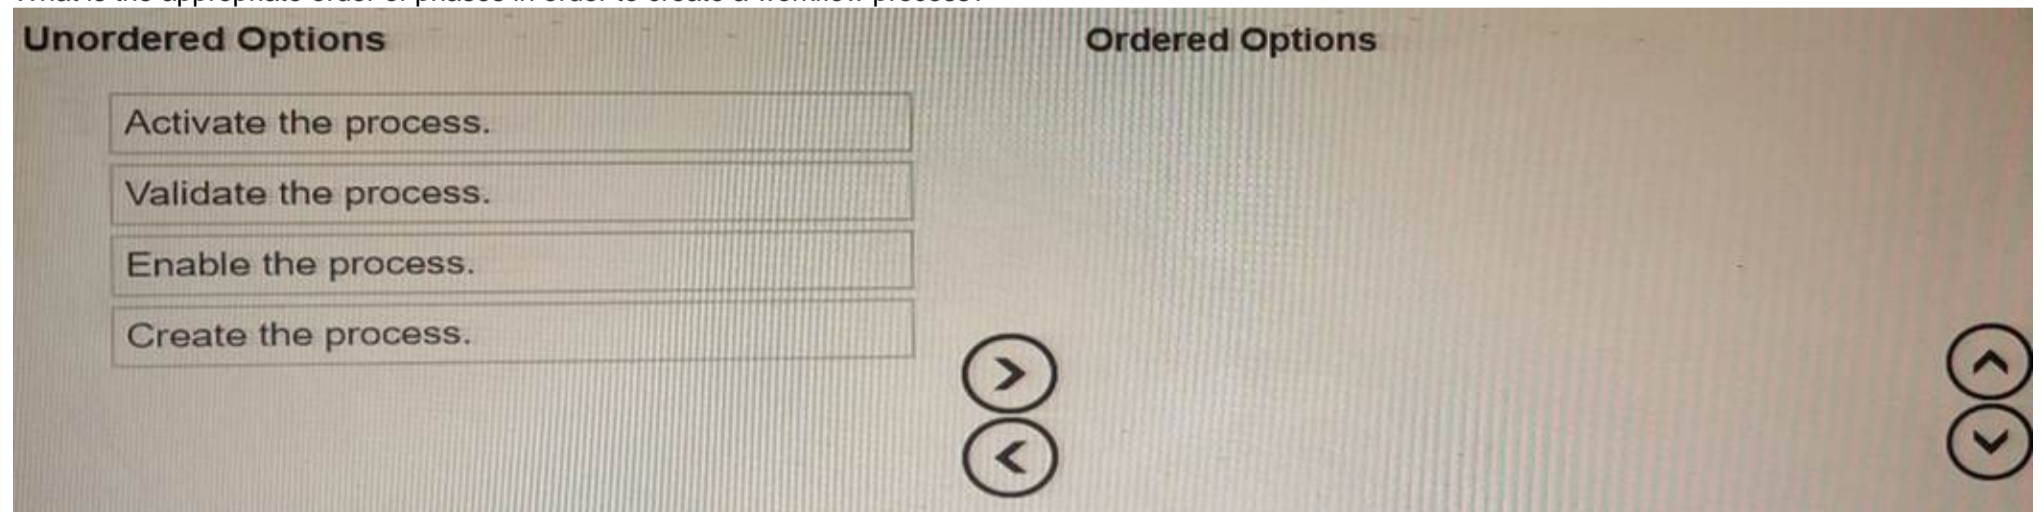

**Answer: D**

**NEW QUESTION 36**

DRAG DROP

Select all that apply

What is the appropriate order of phases in order to create a workflow process?

- A. Mastered
- B. Not Mastered

**Answer: A**

**Explanation:**

The appropriate order of phases in order to create a workflow process in IBM Maximo Manage is:  
? Create the process: This involves designing the workflow process using the Workflow Designer application, including creating the activities, transitions, and conditions that make up the process.

? Validate the process: This involves ensuring that the process has been designed correctly and meets the desired requirements. This can be done by testing the process and making any necessary adjustments.  
? Enable the process: This involves making the process available for use in the system by enabling it in the Workflow Designer application.  
? Activate the process: This involves activating the process in the Workflow Administration application so that it is ready for use by the system.

#### NEW QUESTION 41

During the course of a Work Order an Asset is upgraded. This change requires the Specification of the Asset to be updated automatically when the Work Order is Completed. How can this be achieved?

- A. A Planned Modification should be defined in the Move/Swap/Modify dialog.
- B. An escalation should be created against the Asset record, triggered when the work order is completed.
- C. A related Service Request should be created of Type CHANGE.
- D. A Follow On Work Order should be created.

**Answer:** A

#### NEW QUESTION 45

In which three applications can a failure class be applied? (Choose three.)

- A. Work Order Tracking
- B. Job Plans
- C. Locations
- D. Item Masters
- E. Tools
- F. Assets

**Answer:** ACF

#### NEW QUESTION 50

Which two automation script launch points can be triggered directly by a workflow?

- A. Object
- B. Custom Condition
- C. Attribute - '
- D. Action
- E. Integration

**Answer:** BD

#### Explanation:

two automation script launch points that can be triggered directly by a workflow are B. Custom Condition and D. Action. An action launch point associates a script with an action and executes when the specified action occurs1. A custom condition launch point associates a script with a condition and executes when the specified condition is evaluated2.  
<https://www.ibm.com/docs/en/mam/7.6.0?topic=lp-script-action-launch-point>

#### NEW QUESTION 52

In the Receiving application, what are the three statuses that show the overall receipt status of the purchase order?

- A. COMPLETE
- B. RETURNED
- C. PARTIAL
- D. NONE
- E. WINSP
- F. VOID

**Answer:** ACD

#### Explanation:

In the Receiving application in IBM Maximo Manage, the three statuses that show the overall receipt status of the purchase order are COMPLETE, PARTIAL and NONE.

#### NEW QUESTION 56

How is the Lock Out / Tag Outs application structured?

- A. Specify a Lock Out on an Asset with a Locking Device and define the Tag Out Operations.
- B. Specify a Lock Out on the Location or Asset and define the Tag Out Operations.
- C. Specify a Tag Out on the Location or Asset and define the Lock Out Operations.
- D. Define the isolation procedures on a set of related assets and specify a sequence.

**Answer:** C

#### NEW QUESTION 59

In the Security Groups application which security group are all users added to using default settings?

- A. MAXIMOUSERS

- B. DEFLTREG
- C. DEFUSRREG
- D. NEWUSER

**Answer:** B

**NEW QUESTION 61**

In the Assets application when reporting downtime, what is an example of a Downtime Type?

- A. Starting Up
- B. Line Change Over
- C. Shutting Down
- D. Non-Operational

**Answer:** D

**NEW QUESTION 62**

Calendars can be associated with which three record types?

- A. Items
- B. Locations
- C. Job Plan
- D. Person
- E. Contracts
- F. Assets

**Answer:** BDF

**NEW QUESTION 64**

Which three Safety Module applications require a Site (SITEID) to be defined for each record? (Choose three.)

- A. Accident Reporting
- B. Danger Zones
- C. Tag Outs
- D. Safety Plans
- E. Hazards
- F. Precautions

**Answer:** CDF

**NEW QUESTION 66**

What occurs by default when a Desktop Requisition with one direct issue line is submitted?

- A. A assignment is created for the purchase agen
- B. B Desktop Requisition will wait for a Workflow action
- C. A Purchase Requisition will be created.
- D. An authorized person must approve the Desktop Requisition.

**Answer:** C

**NEW QUESTION 68**

In which application can a user view a history of changes made to attributes in the Specifications tab?

- A. Locations
- B. Item Master
- C. Purchase Orders
- D. Assets

**Answer:** D

**NEW QUESTION 73**

A user wishes to perform the same work tasks on several assets simultaneously. How can this be configured?

- A. A Route should be created with each stop being one Asset and the Job Plan associated with the Route record.
- B. A Master Job Plan should be created with Tasks for each Asset.
- C. A Work Order Hierarchy should be created against the same Job Plan used for all stops.
- D. The Assets should be specified on the Multiple Assets, Locations and CIs table on the Work Order.

**Answer:** D

**Explanation:**

In IBM Maximo Manage, when the same work tasks need to be applied simultaneously to multiple assets, the recommended method is to use the Multiple Assets, Locations, and CIs table on a single Work Order. This approach allows users to specify multiple assets for the work order without creating separate child work orders or task hierarchies, streamlining record management and reducing complexity.

? Multiple Assets, Locations and CIs Table: This table allows the user to list all assets requiring the same work on a single work order. When tasks are defined on

the work order, they apply uniformly across all assets listed in this table. This method is efficient for routine inspections, simple tasks, or other repetitive maintenance where the same task applies to multiple assets

? Routes as an Alternative: A route could also be configured so that each route stop (representing different assets or locations) populates the Multiple Assets, Locations, and CIs table on a single work order when applied. This allows for sequence control and record management while still using a single main work order. This setup minimizes the need to manage multiple child work orders or complex work order hierarchies, particularly when performing similar tasks on several assets simultaneously.

#### NEW QUESTION 77

What are the three default classes of a Ticket?

- A. Problem
- B. Activity
- C. Service Request
- D. Change
- E. Incident
- F. Release

**Answer:** ACE

#### Explanation:

The three default classes of a Ticket in IBM Maximo Manage are Problem, Service Request and Incident.

#### NEW QUESTION 78

What are the three usage types in the Inventory Usage application?

- A. MIXED
- B. ISSUE
- C. STAGED
- D. MOVE
- E. TRANSFER
- F. RECEIV

**Answer:** BCE

#### Explanation:

In IBM Maximo Manage v8.0 implementation, the usage types in the Inventory Usage application are ISSUE, STAGED, and TRANSFER. ISSUE is used to relieve items from inventory for use in maintenance or other processes. STAGED is used to reserve items for future use. TRANSFER is used to move items from one inventory location to another, typically within the same organization.

#### NEW QUESTION 82

In what Maximo Manage application are the specifications of an asset for calibration entered?

- A. Classifications
- B. Asset
- C. Data Sheet Template
- D. Improvements

**Answer:** C

#### Explanation:

In IBM Maximo Manage, the specifications of an asset for calibration are entered in the Data Sheet Template application.

#### NEW QUESTION 85

When creating a new Inspection form, a client requires a Work Order to be created if certain responses are recorded. Which two actions are required for this to be achieved?

- A. Choose Work Order on question action.
- B. Make the question response interactive.
- C. In Form Settings add an Action Script.
- D. In the Question Options, set the Require action flag.
- E. Create an escalation on the QRESPONSE Object.

**Answer:** CD

#### NEW QUESTION 89

In the Preventive Maintenance (PM) application, how is the Estimated Next Due Date calculated when Adjust Next Due Date is selected?

- A. Extended Date + Alert Lead (Days)
- B. Extended Date + Frequency
- C. Extended Date + Target Start Time
- D. Extended Date -Alert Lead (Days)

**Answer:** B

#### NEW QUESTION 94

In the Manage Inventory Work Center a pick list can be created, its initial status is Entered. Which three actions will cause the status to change to in Progress?

(Choose three.)

- A. Picked
- B. Restocked
- C. Prepared
- D. Issued
- E. Staged
- F. Returned

**Answer:** ADE

**Explanation:**

In the IBM Maximo Manage Inventory Work Center, a pick list starts with a status of "Entered." To change this status to "In Progress," certain actions need to be performed on the items within the pick list. The following actions trigger the transition from "Entered" to "In Progress":

? Picked: When items on the pick list are marked as "Picked," it signals that the

inventory has been gathered and is ready for further processing. This action moves the pick list status to "In Progress"

? Staged: Staging items on the pick list moves them to an intermediate location or prepares them for issuance. Moving items to this state changes the pick list status to "In Progress" as well

? Issued: Issuing items from the pick list directly fulfills the reservation and removes the inventory from the system. This also updates the pick list status to "In Progress" as it reflects the inventory movement out of storage

Thus, actions A (Picked), D (Issued), and E (Staged) are the correct answers, as they all cause the pick list to shift from "Entered" to "In Progress."

**NEW QUESTION 95**

When adding an Asset to a Work Order, both the Asset and its Location record have a Failure Class defined. Which Failure Class will be used on the Work Order?

- A. It will use the record with the highest priority.
- B. It will be left empty.
- C. Location
- D. Asset

**Answer:** D

**NEW QUESTION 96**

In the Organizations application, which action is used to create Inventory Usage documents for new reservations?

- A. Inventory Usage Options
- B. Inventory Options
- C. Work Order Options
- D. Reservation Options

**Answer:** B

**Explanation:**

In the Organizations application in IBM Maximo Manage, you should use Reservation Options to create Inventory Usage documents for new reservations.

**NEW QUESTION 99**

When a Service Level Agreement is applied to a WORKORDER object, what Commitment Type will be missing from the lookup?

- A. DOWNTIME
- B. DELIVERY
- C. AVAILABILITY
- D. CONTACT

**Answer:** D

**Explanation:**

When a Service Level Agreement (SLA) is applied to a WORKORDER object in IBM Maximo Manage v8.0 implementation, the Commitment Type that will be missing from the lookup is DELIVERY. The other possible Commitment Types in Maximo Manage are DOWNTIME, AVAILABILITY, and CONTACT.

**NEW QUESTION 103**

If a Service Request has a follow-up Work Order, by default at what two Work Order internal statuses would the Service Requests status be updated? (Choose two.)

- A. INPRG
- B. CLOSE
- C. APPR
- D. comp
- E. CAN

**Answer:** AD

**NEW QUESTION 104**

If additional attributes are added to the Work View, how can they be automatically updated from changes made to a corresponding Ticket and Work Order fields?

- A. by modifying the existing Crossover Domains TKT2WV or W02WV
- B. by adding a Crossover Domain to TICKETID or WONUM
- C. by updating the existing Cron Task UpdateWorkView that has two instances TKT2WV and W02WV that use the Crossover Domains of the same name
- D. by modifying the existing Object Launch Point automation script UpdateWV

**Answer:** B

**Explanation:**

In IBM Maximo Manage v8.0 implementation, if you add additional attributes to the Work View and want them to be automatically updated from changes made to corresponding Ticket and Work Order fields, you can modify the existing Crossover Domains TKT2WV or W02WV. Crossover Domains define a mapping between fields on two different objects, allowing data to be synchronized between them.

**NEW QUESTION 107**

What are three available associations in the Hazards application?

- A. Lock Outs
- B. Material Safety Data Sheets (MSDS)
- C. Hazardous Materials
- D. Tag Outs
- E. Precautions
- F. Safety Plans

**Answer:** CDE

**Explanation:**

The Hazards application in IBM Maximo Manage v8.0 allows users to associate Material Safety Data Sheets (MSDS), Hazardous Materials, and Precautions with a particular hazard. These associations help in managing safety information related to hazards and in ensuring compliance with safety regulations.

**NEW QUESTION 111**

In the Master PM application, which two meter-based fields can be updated on associated Preventive Maintenance records? (Choose two.)

- A. Estimation Type
- B. Current Meter Reading
- C. Generate WO Ahead By
- D. Meter Type
- E. Frequency

**Answer:** CE

**Explanation:**

In the IBM Maximo Master PM application, certain meter-based fields can be updated on associated Preventive Maintenance (PM) records when changes are made to the Master PM. Specifically:

? Generate WO Ahead By: This field sets a lead time for generating work orders

ahead of their scheduled due date based on meter readings. Updating this field on the Master PM will adjust when work orders are generated on associated PMs

? Frequency: The frequency determines how often maintenance should occur based on meter readings. When the frequency is updated on the Master PM, this adjustment is applied to associated PMs, ensuring they reflect the updated maintenance interval

These updates allow for consistent and centralized management of preventive maintenance intervals and scheduling, essential for meter-based maintenance tracking in Maximo. Other fields like "Current Meter Reading" or "Meter Type" are not directly updated on associated PMs through the Master PM.

**NEW QUESTION 113**

When setting up Premium Pay Codes in the Crafts application, what are the three rate types available? (Choose three.)

- A. Formula
- B. Hourly
- C. Increment
- D. Weekend
- E. Overtime
- F. Multiplier

**Answer:** BCF

**NEW QUESTION 114**

Which two types of invoice line items can have their costs distributed across multiple GL Accounts? (Choose two.)

- A. Direct Issue
- B. Service Item
- C. Credit Line
- D. Split Invoice
- E. Hard Reserved

**Answer:** AB

**Explanation:**

In IBM Maximo, costs for certain types of invoice line items can be distributed across multiple GL accounts. Specifically, the following types of line items are eligible for cost distribution:

? Direct Issue: These are items directly issued to a work order, asset, or location

rather than being stored in inventory. Costs for direct issue items can be distributed across multiple GL accounts based on the relevant cost centers or departments associated with the purchase

? Service Item: For service-related invoice lines, costs can also be distributed across

multiple GL accounts. This is useful when a service, such as consulting or maintenance, benefits multiple departments, allowing for cost allocation to relevant GL accounts

Other options like "Credit Line," "Split Invoice," and "Hard Reserved" are not applicable for GL account distribution in this context.

#### NEW QUESTION 118

Where can the Asset Up/Down status be modified?

- A. use the Move/Modify Asset action in the Assets application
- B. from the Report Downtime action on the Work Order
- C. use the Move/Swap/Modify action on the Work Order
- D. use the Failure Reporting option on the Work Order

**Answer:** B

#### NEW QUESTION 119

What must first be done in order to apply a price adjustment to an Approved Labor Rate Contract?

- A. Use Edit History Contract from the More Actions menu.
- B. The contract should be revised.
- C. The contract should be suspended.
- D. Change the contract status to closed.

**Answer:** B

#### NEW QUESTION 121

In which two places can Service Request Categories be created for use in the Service Request Work Center?

- A. Classifications Application
- B. Administration Work Center
- C. Business Analysis Work Cen
- D. Service Desk Application
- E. Service Catalog Application

**Answer:** AB

#### Explanation:

[https://www.ibm.com/support/pages/creating-service-request-categories-and-category-options-service-request-work-center#:~:text=In%20the%20Service%20Request%20Work%20Center%2C%20an%20ad](https://www.ibm.com/support/pages/creating-service-request-categories-and-category-options-service-request-work-center#:~:text=In%20the%20Service%20Request%20Work%20Center%2C%20an%20administrator,Object%20parameter%20and%20Asset%20parameter%20set%20to%20SR.)  
[ministrator,Object%20parameter%20and%20Asset%20parameter%20set%20to%20SR.](https://www.ibm.com/support/pages/creating-service-request-categories-and-category-options-service-request-work-center#:~:text=In%20the%20Service%20Request%20Work%20Center%2C%20an%20administrator,Object%20parameter%20and%20Asset%20parameter%20set%20to%20SR.)

In IBM Maximo Manage v8.0, Service Request Categories for the Service Request Work Center can be created in the Administration Work Center and through the Classifications Application:

? Administration Work Center: The Service Request Configuration section within the

Administration Work Center enables administrators to set up and customize service request categories specifically for use in the Service Request Work Center.

This involves defining properties, categories, and issues users select when creating service requests

? Classifications Application: Categories are also managed by setting up

classifications associated with service requests in the Classifications application. When a classification is created with associations to the "Asset" and "SR"

(Service Request) objects, it becomes available as a category option in the Service Request tool. This approach allows issues to be assigned to specific categories using ticket templates tied to classifications

These configurations provide a structured way to set up service categories that enhance service request management by ensuring users select relevant, predefined options during request creation.

#### NEW QUESTION 124

Which two search types can be found on an attribute in the Database Configuration application when using an Oracle or SQL Server database? (Choose two.)

- A. INDEXED
- B. NONE
- C. FUNCTION
- D. HIERARCHY
- E. TEXT

**Answer:** BE

#### NEW QUESTION 129

When creating a labor record, what must be associated with it?

- A. User Record
- B. Person Record
- C. Crew
- D. Supervisor

**Answer:** B

#### Explanation:

When you create a labor record in IBM Maximo Manage v8.0, you enable a person to report time against a work request<sup>1</sup>. Before you create a labor record, you must create a corresponding person record<sup>1</sup>. A person record is defined at the System level and when a person works across multiple organizations, they need multiple Labor records linked to the same Person record<sup>2</sup>.

#### NEW QUESTION 132

What are two depreciation methods available in the Assets application? (Choose two.)

- A. LIN - Linear
- B. METER - Meter units over expected life

- C. SUMYEAR - Sum of the Years Digits
- D. DDB - Double Declining Balance
- E. SL - Straight Line

**Answer:** DE

**NEW QUESTION 134**
