

Exam Questions CIPP-E

Certified Information Privacy Professional/Europe (CIPP/E)

<https://www.2passeasy.com/dumps/CIPP-E/>

NEW QUESTION 1

Article 29 Working Party has emphasized that the GDPR forbids “forum shopping”, which occurs when companies do what?

- A. Choose the data protection officer that is most sympathetic to their business concerns.
- B. Designate their main establishment in member state with the most flexible practices.
- C. File appeals of infringement judgments with more than one EU institution simultaneously.
- D. Select third-party processors on the basis of cost rather than quality of privacy protection.

Answer: B

NEW QUESTION 2

If a French controller has a car-sharing app available only in Morocco, Algeria and Tunisia, but the data processing activities are carried out by the appointed processor in Spain, the GDPR will apply to the processing of the personal data so long as?

- A. The individuals are European citizens or residents.
- B. The data processing activities are in Spain.
- C. The data controller is in France.
- D. The EU individuals are targeted.

Answer: D

NEW QUESTION 3

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data.

Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

What are ABC Hotel Chain and XYZ Travel Agency's roles in this relationship?

- A. ABC Hotel Chain is the controller and XYZ Travel Agency is the processor.
- B. XYZ Travel Agency is the controller and ABC Hotel Chain is the processor.
- C. ABC Hotel Chain and XYZ Travel Agency are independent controllers.
- D. ABC Hotel Chain and XYZ Travel Agency are joint controllers.

Answer: A

NEW QUESTION 4

With the issue of consent, the GDPR allows member states some choice regarding what?

- A. The mechanisms through which consent may be communicated
- B. The circumstances in which silence or inactivity may constitute consent
- C. The age at which children must be required to obtain parental consent
- D. The timeframe in which data subjects are allowed to withdraw their consent

Answer: C

NEW QUESTION 5

A German data subject was the victim of an embarrassing prank 20 years ago. A newspaper website published an article about the prank at the time, and the article is still available on the newspaper's website. Unfortunately, the prank is the top search result when a user searches on the victim's name. The data subject requests that SearchCo delist this result. SearchCo agrees, and instructs its technology team to avoid scanning or indexing the article. What else must SearchCo do?

- A. Notify the newspaper that its article it is delisting the article.
- B. Fully erase the URL to the content, as opposed to delist which is mainly based on data subject's name.
- C. Identify other controllers who are processing the same information and inform them of the delisting request.
- D. Prevent the article from being listed in search results no matter what search terms are entered into the search engine.

Answer: A

NEW QUESTION 6

In which case would a controller who has undertaken a DPIA most likely need to consult with a supervisory authority?

- A. Where the DPIA identifies that personal data needs to be transferred to other countries outside of the EEA.
- B. Where the DPIA identifies high risks to individuals' rights and freedoms that the controller can take steps to reduce.
- C. Where the DPIA identifies that the processing being proposed collects the sensitive data of EU citizens.
- D. Where the DPIA identifies risks that will require insurance for protecting its business interests.

Answer: B

NEW QUESTION 7

According to the European Data Protection Board, which of the following concepts or practices does NOT follow from the principles relating to the processing of personal data under EU data protection law?

- A. Data ownership allocation.
- B. Access control management.
- C. Frequent pseudonymization key rotation.
- D. Error propagation avoidance along the processing chain.

Answer: C

NEW QUESTION 8

According to Article 84 of the GDPR, the rules on penalties applicable to infringements shall be laid down by?

- A. The local Data Protection Supervisory Authorities.
- B. The European Data Protection Board.
- C. The EU Commission.
- D. The Member States.

Answer: D

NEW QUESTION 9

SCENARIO

Please use the following to answer the next question:

Louis, a long-time customer of Bedrock Insurance, was involved in a minor car accident a few months ago. Although no one was hurt, Louis has been plagued by texts and calls from a company called Accidentable offering to help him recover compensation for personal injury. Louis has heard about insurance companies selling customers' data to third parties, and he's convinced that Accidentable must have gotten his information from Bedrock Insurance.

Louis has also been receiving an increased amount of marketing information from Bedrock, trying to sell him their full range of their insurance policies.

Perturbed by this, Louis has started looking at price comparison sites on the internet and has been shocked to find that other insurers offer much cheaper rates than Bedrock, even though he has been a loyal customer for many years. When his Bedrock policy comes up for renewal, he decides to switch to Zantrum Insurance.

In order to activate his new insurance policy, Louis needs to supply Zantrum with information about his No Claims bonus, his vehicle and his driving history. After researching his rights under the GDPR, he writes to ask Bedrock to transfer his information directly to Zantrum. He also takes this opportunity to ask Bedrock to stop using his personal data for marketing purposes.

Bedrock supplies Louis with a PDF and XML (Extensible Markup Language) versions of his No Claims Certificate, but tells Louis it cannot transfer his data directly to Zantrum as this is not technically feasible. Bedrock also explains that Louis's contract included a provision whereby Louis agreed that his data could be used for marketing purposes; according to Bedrock, it is too late for Louis to change his mind about this. It angers Louis when he recalls the wording of the contract, which was filled with legal jargon and very confusing.

In the meantime, Louis is still receiving unwanted calls from Accidentable Insurance. He writes to Accidentable to ask for the name of the organization that supplied his details to them. He warns Accidentable that he plans to complain to the data protection authority, because he thinks their company has been using his data unlawfully. His letter states that he does not want his data being used by them in any way.

Accidentable's response letter confirms Louis's suspicions. Accidentable is Bedrock Insurance's wholly owned subsidiary, and they received information about Louis's accident from Bedrock shortly after Louis submitted his accident claim. Accidentable assures Louis that there has been no breach of the GDPR, as Louis's contract included, a provision in which he agreed to share his information with Bedrock's affiliates for business purposes.

Louis is disgusted by the way in which he has been treated by Bedrock, and writes to them insisting that all his information be erased from their computer system. After Louis has exercised his right to restrict the use of his data, under what conditions would Accidentable have grounds for refusing to comply?

- A. If Accidentable is entitled to use of the data as an affiliate of Bedrock.
- B. If Accidentable also uses the data to conduct public health research.
- C. If the data becomes necessary to defend Accidentable's legal rights.
- D. If the accuracy of the data is not an aspect that Louis is disputing.

Answer: A

NEW QUESTION 10

Please use the following to answer the next question:

WonderkKids provides an online booking service for childcare. Wonderkids is based in France, but hosts its website through a company in Switzerland. As part of their service, WonderKids will pass all personal data

provided to them to the childcare provider booked through their system. The type of personal data collected on the website includes the name of the person booking the childcare, address and contact details, as well as information about the children to be cared for including name, age, gender and health information.

The privacy statement on Wonderkids' website states the following:

"WonderkKids provides the information you disclose to us through this website to your childcare provider for scheduling and health and safety reasons. We may also use your and your child's personal information for our own legitimate business purposes and we employ a third-party website hosting company located in Switzerland to store the data. Any data stored on equipment located in Switzerland meets the European Commission provisions for guaranteeing adequate safeguards for you and your child's personal information. We will only share you and your child's personal information with businesses that we see as adding real value to you. By providing us with any personal data, you consent to its transfer to affiliated businesses and to send you promotional offers."

"We may retain you and your child's personal information for no more than 28 days, at which point the data will be depersonalized, unless your personal information is being used for a legitimate business purpose beyond 28 days where it may be retained for up to 2 years."

"We are processing you and your child's personal information with your consent. If you choose not to provide certain information to us, you may not be able to use our services. You have the right to: request access to you and your child's personal information; rectify or erase you or your child's personal information; the right to correction or erasure of you and/or your child's personal information; object to any processing of you and your child's personal information. You also have the right to complain to the supervisory authority about our data processing activities."

What direct marketing information can WonderKids send by email without prior consent of the person booking the childcare?

- A. No marketing information at all.
- B. Any marketing information at all.
- C. Marketing information related to other business operations of WonderKids.
- D. Marketing information for products or services similar to those purchased from WonderKids.

Answer: C

NEW QUESTION 10

An online company's privacy practices vary due to the fact that it offers a wide variety of services. How could it best address the concern that explaining them all would make the policies incomprehensible?

- A. Use a layered privacy notice on its website and in its email communications.
- B. Identify uses of data in a privacy notice mailed to the data subject.
- C. Provide only general information about its processing activities and offer a toll-free number for more information.
- D. Place a banner on its website stipulating that visitors agree to its privacy policy and terms of use by visiting the site.

Answer: B

NEW QUESTION 15

Which statement is correct when considering the right to privacy under Article 8 of the European Convention on Human Rights (ECHR)?

- A. The right to privacy is an absolute right
- B. The right to privacy has to be balanced against other rights under the ECHR
- C. The right to freedom of expression under Article 10 of the ECHR will always override the right to privacy
- D. The right to privacy protects the right to hold opinions and to receive and impart ideas without interference

Answer: B

NEW QUESTION 20

When does the GDPR provide more latitude for a company to process data beyond its original collection purpose?

- A. When the data has been pseudonymized.
- B. When the data is protected by technological safeguards.
- C. When the data serves legitimate interest of third parties.
- D. When the data subject has failed to use a provided opt-out mechanism.

Answer: C

NEW QUESTION 23

What is one major goal that the OECD Guidelines, Convention 108 and the Data Protection Directive (Directive 95/46/EC) all had in common but largely failed to achieve in Europe?

- A. The establishment of a list of legitimate data processing criteria
- B. The creation of legally binding data protection principles
- C. The synchronization of approaches to data protection
- D. The restriction of cross-border data flow

Answer: D

NEW QUESTION 27

To receive a preliminary interpretation on provisions of the GDPR, a national court will refer its case to which of the following?

- A. The Court of Justice of the European Union.
- B. The European Data Protection Supervisor.
- C. The European Court of Human Rights.
- D. The European Data Protection Board.

Answer: A

NEW QUESTION 31

SCENARIO

Please use the following to answer the next question:

Building Block Inc. is a multinational company, headquartered in Chicago with offices throughout the United States, Asia, and Europe (including Germany, Italy, France and Portugal). Last year the company was the victim of a phishing attack that resulted in a significant data breach. The executive board, in coordination with the general manager, their Privacy Office and the Information Security team, resolved to adopt additional security measures. These included training awareness programs, a cybersecurity audit, and use of a new software tool called SecurityScan, which scans employees' computers to see if they have software that is no longer being supported by a vendor and therefore not getting security updates. However, this software also provides other features, including the monitoring of employees' computers.

Since these measures would potentially impact employees, Building Block's Privacy Office decided to issue a general notice to all employees indicating that the company will implement a series of initiatives to enhance information security and prevent future data breaches.

After the implementation of these measures, server performance decreased. The general manager instructed the Security team on how to use SecurityScan to monitor employees' computers activity and their location. During these activities, the Information Security team discovered that one employee from Italy was daily connecting to a video library of movies, and another one from Germany worked remotely without authorization. The Security team reported these incidents to the Privacy Office and the general manager. In their report, the team concluded that the employee from Italy was the reason why the server performance decreased. Due to the seriousness of these infringements, the company decided to apply disciplinary measures to both employees, since the security and privacy policy of the company prohibited employees from installing software on the company's computers, and from working remotely without authorization.

To comply with the GDPR, what should Building Block have done as a first step before implementing the SecurityScan measure?

- A. Assessed potential privacy risks by conducting a data protection impact assessment.
- B. Consulted with the relevant data protection authority about potential privacy violations.
- C. Distributed a more comprehensive notice to employees and received their express consent.
- D. Consulted with the Information Security team to weigh security measures against possible server impacts.

Answer: C

NEW QUESTION 36

When hiring a data processor, which action would a data controller NOT be able to depend upon to avoid liability in the event of a security breach?

- A. Documenting due diligence steps taken in the pre-contractual stage.
- B. Conducting a risk assessment to analyze possible outsourcing threats.
- C. Requiring that the processor directly notify the appropriate supervisory authority.
- D. Maintaining evidence that the processor was the best possible market choice available.

Answer: A

NEW QUESTION 39

A well-known video production company, based in Spain but specializing in documentaries filmed worldwide, has just finished recording several hours of footage featuring senior citizens in the streets of Madrid. Under what condition would the company NOT be required to obtain the consent of everyone whose image they use for their documentary?

- A. If obtaining consent is deemed to involve disproportionate effort.
- B. If obtaining consent is deemed voluntary by local legislation.
- C. If the company limits the footage to data subjects solely of legal age.
- D. If the company's status as a documentary provider allows it to claim legitimate interest.

Answer: B

NEW QUESTION 43

Article 58 of the GDPR describes the power of supervisory authorities. Which of the following is NOT among those granted?

- A. Legislative powers.
- B. Corrective powers.
- C. Investigatory powers.
- D. Authorization and advisory powers.

Answer: D

NEW QUESTION 46

Under which of the following conditions does the General Data Protection Regulation NOT apply to the processing of personal data?

- A. When the personal data is processed only in non-electronic form
- B. When the personal data is collected and then pseudonymised by the controller
- C. When the personal data is held by the controller but not processed for further purposes
- D. When the personal data is processed by an individual only for their household activities

Answer: B

NEW QUESTION 51

Article 5(1)(b) of the GDPR states that personal data must be "collected for specified, explicit and legitimate purposes and not further processed in a way incompatible with those purposes." Based on Article 5(1)(b), what is the impact of a member state's interpretation of the word "incompatible"?

- A. It dictates the level of security a processor must follow when using and storing personal data for two different purposes.
- B. It guides the courts on the severity of the consequences for those who are convicted of the intentional misuse of personal data.
- C. It sets the standard for the level of detail a controller must record when documenting the purpose for collecting personal data.
- D. It indicates the degree of flexibility a controller has in using personal data in ways that may vary from its original intended purpose.

Answer: A

NEW QUESTION 54

Read the following steps:

Discover which employees are accessing cloud services and from which devices and apps
Lock down the data in those apps and devices
Monitor and analyze the apps and devices for compliance
Manage application life cycles
Monitor data sharing

An organization should perform these steps to do which of the following?

- A. Pursue a GDPR-compliant Privacy by Design process.
- B. Institute a GDPR-compliant employee monitoring process.
- C. Maintain a secure Bring Your Own Device (BYOD) program.
- D. Ensure cloud vendors are complying with internal data use policies.

Answer: C

NEW QUESTION 55

Why is advisable to avoid consent as a legal basis for an employer to process employee data?

- A. Employee data can only be processed if there is an approval from the data protection officer.
- B. Consent may not be valid if the employee feels compelled to provide it.
- C. An employer might have difficulty obtaining consent from every employee.
- D. Data protection laws do not apply to processing of employee data.

Answer: A

NEW QUESTION 60

SCENARIO

Please use the following to answer the next question:

BHealthy, a company based in Italy, is ready to launch a new line of natural products, with a focus on sunscreen. The last step prior to product launch is for BHealthy to conduct research to decide how extensively to market its new line of sunscreens across Europe. To do so, BHealthy teamed up with Natural Insight, a company specializing in determining pricing for natural products. BHealthy decided to share its existing customer information – name, location, and prior purchase history – with Natural Insight. Natural Insight intends to use this information to train its algorithm to help determine the price point at which BHealthy can sell its new sunscreens.

Prior to sharing its customer list, BHealthy conducted a review of Natural Insight's security practices and concluded that the company has sufficient security measures to protect the contact information. Additionally, BHealthy's data processing contractual terms with Natural Insight require continued implementation of technical and organization measures. Also indicated in the contract are restrictions on use of the data provided by BHealthy for any purpose beyond provision of the services, which include use of the data for continued improvement of Natural Insight's machine learning algorithms.

What is the nature of BHealthy and Natural Insight's relationship?

- A. Natural Insight is BHealthy's processor because the companies entered into data processing terms.
- B. Natural Insight is BHealthy's processor because BHealthy is sharing its customer information with Natural Insight.
- C. Natural Insight is the controller because it determines the security measures to implement to protect data it processes; BHealthy is a co-controller because it engaged Natural Insight to determine pricing for the new sunscreens.
- D. Natural Insight is a controller because it is separately determine the purpose of processing when it uses BHealthy's customer information to improve its machine learning algorithms.

Answer: A

NEW QUESTION 62

SCENARIO

Please use the following to answer the next question:

Joe started the Gummy Bear Company in 2000 from his home in Vermont, USA. Today, it is a multi-billion-dollar candy company operating in every continent. All of the company's IT servers are located in Vermont. This year Joe hires his son Ben to join the company and head up Project Big, which is a major marketing strategy to triple gross revenue in just 5 years. Ben graduated with a PhD in computer software from a top university. Ben decided to join his father's company, but is also secretly working on launching a new global online dating website company called Ben Knows Best.

Ben is aware that the Gummy Bear Company has millions of customers and believes that many of them might also be interested in finding their perfect match. For Project Big, Ben redesigns the company's online web portal and requires customers in the European Union and elsewhere to provide additional personal information in order to remain a customer. Project Ben begins collecting data about customers' philosophical beliefs, political opinions and marital status.

If a customer identifies as single, Ben then copies all of that customer's personal data onto a separate database for Ben Knows Best. Ben believes that he is not doing anything wrong, because he explicitly asks each customer to give their consent by requiring them to check a box before accepting their information. As Project Big is an important project, the company also hires a first year college student named Sam, who is studying computer science to help Ben out.

Ben calls out and Sam comes across the Ben Knows Best database. Sam is planning on going to Ireland over Spring Beak with 10 of his friends, so he copies all of the customer information of people that reside in Ireland so that he and his friends can contact people when they are in Ireland.

Joe also hires his best friend's daughter, Alice, who just graduated from law school in the U.S., to be the company's new General Counsel. Alice has heard about the GDPR, so she does some research on it. Alice approaches Joe and informs him that she has drafted up Binding Corporate Rules for everyone in the company to follow, as it is important for the company to have in place a legal mechanism to transfer data internally from the company's operations in the European Union to the U.S.

Joe believes that Alice is doing a great job, and informs her that she will also be in-charge of handling a major lawsuit that has been brought against the company in federal court in the U.S. To prepare for the lawsuit, Alice instructs the company's IT department to make copies of the computer hard drives from the entire global sales team, including the European Union, and send everything to her so that she can review everyone's information. Alice believes that Joe will be happy that she did the first level review, as it will save the company a lot of money that would otherwise be paid to its outside law firm.

In preparing the company for its impending lawsuit, Alice's instruction to the company's IT Department violated Article 5 of the GDPR because the company failed to first do what?

- A. Send out consent forms to all of its employees.
- B. Minimize the amount of data collected for the lawsuit.
- C. Inform all of its employees about the lawsuit.
- D. Encrypt the data from all of its employees.

Answer: B

NEW QUESTION 67

The GDPR requires controllers to supply data subjects with detailed information about the processing of their data. Where a controller obtains data directly from data subjects, which of the following items of information does NOT legally have to be supplied?

- A. The recipients or categories of recipients.
- B. The categories of personal data concerned.
- C. The rights of access, erasure, restriction, and portability.
- D. The right to lodge a complaint with a supervisory authority.

Answer: B

NEW QUESTION 69

SCENARIO

Please use the following to answer the next question:

Sandy recently joined Market4U, an advertising technology company founded in 2016, as their VP of Privacy and Data Governance. Through her first initiative in conducting a data inventory, Sandy learned that Market4U maintains a list of 19 million global contacts that were collected throughout the course of Market4U's existence. Knowing the risk of having such a large amount of data, Sandy wanted to purge all contacts that were entered into Market4U's systems prior to May 2018, unless such contacts had a more recent interaction with Market4U content. However, Dan, the VP of Sales, informed Sandy that all of the contacts provide useful information regarding successful marketing campaigns and trends in industry verticals for Market4U's clients.

Dan also informed Sandy that he had wanted to focus on gaining more customers within the sports and entertainment industry. To assist with this behavior,

Market4U's marketing team decided to add several new fields to Market4U's website forms, including forms for downloading white papers, creating accounts to participate in Market4U's forum, and attending events. Such fields include birth date and salary.

What is the best way that Sandy can gain the insights that Dan seeks while still minimizing risks for Market4U?

- A. Conduct analysis only on anonymized personal data.
- B. Conduct analysis only on pseudonymized personal data.
- C. Delete all data collected prior to May 2018 after conducting the trend analysis.
- D. Procure a third party to conduct the analysis and delete the data from Market4U's systems.

Answer: A

NEW QUESTION 73

In which scenario is a Controller most likely required to undertake a Data Protection Impact Assessment?

- A. When the controller is collecting email addresses from individuals via an online registration form for marketing purposes.
- B. When personal data is being collected and combined with other personal data to profile the creditworthiness of individuals.
- C. When the controller is required to have a Data Protection Officer.
- D. When personal data is being transferred outside of the EEA.

Answer: C

NEW QUESTION 78

As per the GDPR, which legal basis would be the most appropriate for an online shop that wishes to process personal data for the purpose of fraud prevention?

- A. Protection of the interests of the data subjects.
- B. Performance of a contract
- C. Legitimate interest
- D. Consent

Answer: D

NEW QUESTION 80

SCENARIO

Please use the following to answer the next question:

Joe is the new privacy manager for Who-R-U, a Canadian business that provides DNA analysis. The company is headquartered in Montreal, and all of its employees are located there. The company offers its services to Canadians only: Its website is in English and French, it accepts only Canadian currency, and it blocks internet traffic from outside of Canada (although this solution doesn't prevent all non-Canadian traffic). It also declines to process orders that request the DNA report to be sent outside of Canada, and returns orders that show a non-Canadian return address.

Bob, the President of Who-R-U, thinks there is a lot of interest for the product in the EU, and the company is exploring a number of plans to expand its customer base.

The first plan, collegially called We-Track-U, will use an app to collect information about its current Canadian customer base. The expansion will allow its Canadian customers to use the app while traveling abroad. He suggests that the company use this app to gather location information. If the plan shows promise, Bob proposes to use push notifications and text messages to encourage existing customers to pre-register for an EU version of the service. Bob calls this work plan, We-Text-U. Once the company has gathered enough pre-registrations, it will develop EU-specific content and services.

Another plan is called Customer for Life. The idea is to offer additional services through the company's app, like storage and sharing of DNA information with other applications and medical providers. The company's contract says that it can keep customer DNA indefinitely, and use it to offer new services and market them to customers. It also says that customers agree not to withdraw direct marketing consent. Paul, the marketing director, suggests that the company should fully exploit these provisions, and that it can work around customers' attempts to withdraw consent because the contract invalidates them.

The final plan is to develop a brand presence in the EU. The company has already begun this process. It is in the process of purchasing the naming rights for a building in Germany, which would come with a few offices that Who-R-U executives can use while traveling internationally. The office doesn't include any technology or infrastructure; rather, it's simply a room with a desk and some chairs.

On a recent trip concerning the naming-rights deal, Bob's laptop is stolen. The laptop held unencrypted DNA reports on 5,000 Who-R-U customers, all of whom are residents of Canada. The reports include customer name, birthdate, ethnicity, racial background, names of relatives, gender, and occasionally health information.

If Who-R-U decides to track locations using its app, what must it do to comply with the GDPR?

- A. Get consent from the app users.
- B. Provide a transparent notice to users.
- C. Anonymize the data and add latency so it avoids disclosing real time locations.
- D. Obtain a court order because location data is a special category of personal data.

Answer: A

NEW QUESTION 82

A multinational company is appointing a mandatory data protection officer. In addition to considering the rules set out in Article 37 (1) of the GDPR, which of the following actions must the company also undertake to ensure compliance in all EU jurisdictions in which it operates?

- A. Consult national derogations to evaluate if there are additional cases to be considered in relation to the matter.
- B. Conduct a Data Protection Privacy Assessment on the processing operations of the company in all the countries it operates.
- C. Assess whether the company has more than 250 employees in each of the EU member-states in which it is established.
- D. Revise the data processing activities of the company that affect more than one jurisdiction to evaluate whether they comply with the principles of privacy by design and by default.

Answer: B

NEW QUESTION 86

In which of the following cases would an organization MOST LIKELY be required to follow both ePrivacy and data protection rules?

- A. When creating an untargeted pop-up ad on a website.
- B. When calling a potential customer to notify her of an upcoming product sale.
- C. When emailing a customer to announce that his recent order should arrive earlier than expected.
- D. When paying a search engine company to give prominence to certain products and services within specific search results.

Answer: A

NEW QUESTION 90

A U.S.-based online shop uses sophisticated software to track the browsing behavior of its European customers and predict future purchases. It also shares this information with third parties. Under the GDPR, what is the online shop's PRIMARY obligation while engaging in this kind of profiling?

- A. It must solicit informed consent through a notice on its website
- B. It must seek authorization from the European supervisory authorities
- C. It must be able to demonstrate a prior business relationship with the customers
- D. It must prove that it uses sufficient security safeguards to protect customer data

Answer: A

NEW QUESTION 92

With respect to international transfers of personal data, the European Data Protection Board (EDPB) confirmed that derogations may be relied upon under what condition?

- A. If the data controller has received preapproval from a Data Protection Authority (DPA), after submitting the appropriate documents.
- B. When it has been determined that adequate protection can be performed.
- C. Only if the Data Protection Impact Assessment (DPIA) shows low risk.
- D. Only as a last resort and when interpreted restrictively.

Answer: B

NEW QUESTION 96

When does the European Data Protection Board (EDPB) recommend reevaluating whether a transfer tool is effectively providing a level of personal data protection that is in compliance with the European Union (EU) level?

- A. After a personal data breach.
- B. Every three (3) years.
- C. On an ongoing basis.
- D. Every year.

Answer: C

NEW QUESTION 98

Which institution has the power to adopt findings that confirm the adequacy of the data protection level in a non-EU country?

- A. The European Parliament
- B. The European Commission
- C. The Article 29 Working Party
- D. The European Council

Answer: B

NEW QUESTION 103

Which of the following was the first legally binding international instrument in the area of data protection?

- A. Convention 108.
- B. General Data Protection Regulation.
- C. Universal Declaration of Human Rights.
- D. EU Directive on Privacy and Electronic Communications.

Answer: A

NEW QUESTION 105

SCENARIO

Please use the following to answer the next question:

You have just been hired by a toy manufacturer based in Hong Kong. The company sells a broad range of dolls, action figures and plush toys that can be found internationally in a wide variety of retail stores. Although the manufacturer has no offices outside Hong Kong and in fact does not employ any staff outside Hong Kong, it has entered into a number of local distribution contracts. The toys produced by the company can be found in all popular toy stores throughout Europe, the United States and Asia. A large portion of the company's revenue is due to international sales.

The company now wishes to launch a new range of connected toys, ones that can talk and interact with children. The CEO of the company is touting these toys as the next big thing, due to the increased possibilities offered: The figures can answer children's Questions: on various subjects, such as mathematical calculations or the weather. Each figure is equipped with a microphone and speaker and can connect to any smartphone or tablet via Bluetooth. Any mobile device within a 10-meter radius can connect to the toys via Bluetooth as well. The figures can also be associated with other figures (from the same manufacturer) and interact with each other for an enhanced play experience.

When a child asks the toy a QUESTION, the request is sent to the cloud for analysis, and the answer is generated on cloud servers and sent back to the figure.

The answer is given through the figure's integrated speakers, making it appear as though that the toy is actually responding to the child's QUESTION. The packaging of the toy does not provide technical details on how this works, nor does it mention that this feature requires an internet connection. The necessary data processing for this has been outsourced to a data center located in South Africa. However, your company has not yet revised its consumer-facing privacy policy to indicate this.

In parallel, the company is planning to introduce a new range of game systems through which consumers can play the characters they acquire in the course of playing the game. The system will come bundled with a portal that includes a Near-Field Communications (NFC) reader. This device will read an RFID tag in the action figure, making the figure come to life onscreen. Each character has its own stock features and abilities, but it is also possible to earn additional ones by accomplishing game goals. The only information stored in the tag relates to the figures' abilities. It is easy to switch characters during the game, and it is possible to bring the figure to locations outside of the home and have the character's abilities remain intact.

In light of the requirements of Article 32 of the GDPR (related to the Security of Processing), which practice should the company institute?

- A. Encrypt the data in transit over the wireless Bluetooth connection.
- B. Include dual-factor authentication before each use by a child in order to ensure a minimum amount of security.
- C. Include three-factor authentication before each use by a child in order to ensure the best level of security possible.
- D. Insert contractual clauses into the contract between the toy manufacturer and the cloud service provider, since South Africa is outside the European Union.

Answer: A

NEW QUESTION 110

SCENARIO

Please use the following to answer the next question:

T-Craze, a German-headquartered specialty t-shirt company, was successfully selling to large German metropolitan cities. However, after a recent merger with another German-based company that was selling to a broader European market, T-Craze revamped its marketing efforts to sell to a wider audience. These efforts included a complete redesign of its logo to reflect the recent merger, and improvements to its website meant to capture more information about visitors through the use of cookies.

T-Craze also opened various office locations throughout Europe to help expand its business. While Germany continued to host T-Craze's headquarters and main product-design office, its French affiliate became responsible for all marketing and sales activities. The French affiliate recently procured the services of Right Target, a renowned marketing firm based in the Philippines, to run its latest marketing campaign. After thorough research, Right Target determined that T-Craze is most successful with customers between the ages of 18 and 22. Thus, its first campaign targeted university students in several European capitals, which yielded nearly 40% new customers for T-Craze in one quarter. Right Target also ran subsequent campaigns for T-Craze, though with much less success.

The last two campaigns included a wider demographic group and resulted in countless unsubscribe requests, including a large number in Spain. In fact, the Spanish data protection authority received a complaint from Sofia, a mid-career investment banker. Sofia was upset after receiving a marketing communication even after unsubscribing from such communications from the Right Target on behalf of T-Craze.

Which of the following is T-Craze's lead supervisory authority?

- A. Germany, because that is where T-Craze is headquartered.
- B. France, because that is where T-Craze conducts processing of personal information.
- C. Spain, because that is T-Craze's primary market based on its marketing campaigns.
- D. T-Craze may choose its lead supervisory authority where any of its affiliates are based, because it has presence in several European countries.

Answer: C

NEW QUESTION 115

Assuming that the "without undue delay" provision is followed, what is the time limit for complying with a data access request?

- A. Within 40 days of receipt
- B. Within 40 days of receipt, which may be extended by up to 40 additional days
- C. Within one month of receipt, which may be extended by up to an additional month
- D. Within one month of receipt, which may be extended by an additional two months

Answer: C

NEW QUESTION 118

The European Parliament jointly exercises legislative and budgetary functions with which of the following?

- A. The European Commission.
- B. The Article 29 Working Party.
- C. The Council of the European Union.
- D. The European Data Protection Board.

Answer: C

NEW QUESTION 123

SCENARIO

Please use the following to answer the next question:

Zandelay Fashion ('Zandelay') is a successful international online clothing retailer that employs approximately 650 people at its headquarters based in Dublin, Ireland. Martin is their recently appointed data protection officer, who oversees the company's compliance with the General Data Protection Regulation (GDPR) and other privacy legislation.

The company offers both male and female clothing lines across all age demographics, including children. In doing so, the company processes large amounts of information about such customers, including preferences and sensitive financial information such as credit card and bank account numbers.

In an aggressive bid to build revenue growth, Jerry, the CEO, tells Martin that the company is launching a new mobile app and loyalty scheme that puts significant emphasis on profiling the company's customers by analyzing their purchases. Martin tells the CEO that: (a) the potential risks of such activities means that Zandelay needs to carry out a data protection impact assessment to assess this new venture and its privacy implications; and (b) where the results of this assessment indicate a high risk in the absence of appropriate protection measures. Zandelay may have to undertake a prior consultation with the Irish Data Protection Commissioner before implementing the app and loyalty scheme.

Jerry tells Martin that he is not happy about the prospect of having to directly engage with a supervisory authority and having to disclose details of Zandelay's business plan and associated processing activities.

What must Zandelay provide to the supervisory authority during the prior consultation?

- A. An evaluation of the complexity of the intended processing.
- B. An explanation of the purposes and means of the intended processing.
- C. Records showing that customers have explicitly consented to the intended profiling activities.
- D. Certificates that prove Martin's professional qualities and expert knowledge of data protection law.

Answer: B

NEW QUESTION 127

SCENARIO

Please use the following to answer the next question:

Anna and Frank both work at Granchester University. Anna is a lawyer responsible for data protection, while Frank is a lecturer in the engineering department. The University maintains a number of types of records:

Student records, including names, student numbers, home addresses, pre-university information, university attendance and performance records, details of special educational needs and financial information.

Staff records, including autobiographical materials (such as curricula, professional contact files, student evaluations and other relevant teaching files).

Alumni records, including birthplaces, years of birth, dates of matriculation and conferrals of degrees.

These records are available to former students after registering through Granchester's Alumni portal. Department for Education records, showing how certain demographic groups (such as first-generation students) could be expected, on average, to progress. These records do not contain names or identification numbers.

Under their security policy, the University encrypts all of its personal data records in transit and at rest. In order to improve his teaching, Frank wants to investigate how his engineering students perform in relational to Department for Education expectations. He has attended one of Anna's data protection training courses and knows that he should use no more personal data than necessary to accomplish his goal. He creates a program that will only export some student data: previous schools attended, grades originally obtained, grades currently obtained and first time university attended. He wants to keep the records at the individual student level. Mindful of Anna's training, Frank runs the student numbers through an algorithm to transform them into different reference numbers. He uses the same algorithm on each occasion so that he can update each record over time.

One of Anna's tasks is to complete the record of processing activities, as required by the GDPR. After receiving her email reminder, as required by the GDPR.

After receiving her email reminder, Frank informs Anna about his performance database.

Ann explains to Frank that, as well as minimizing personal data, the University has to check that this new use of existing data is permissible. She also suspects that, under the GDPR, a risk analysis may have to be carried out before the data processing can take place. Anna arranges to discuss this further with Frank after she has done some additional research.

Frank wants to be able to work on his analysis in his spare time, so he transfers it to his home laptop (which is not encrypted). Unfortunately, when Frank takes the laptop into the University he loses it on the train. Frank has to see Anna that day to discuss compatible processing. He knows that he needs to report security incidents, so he decides to tell Anna about his lost laptop at the same time.

Anna will find that a risk analysis is NOT necessary in this situation as long as?

- A. The data subjects are no longer current students of Frank's
- B. The processing will not negatively affect the rights of the data subjects
- C. The algorithms that Frank uses for the processing are technologically sound
- D. The data subjects gave their unambiguous consent for the original processing

Answer: D

NEW QUESTION 129

In which of the following cases, cited as an example by a WP29 guidance, would conducting a single data protection impact assessment to address multiple processing operations be allowed?

- A. A medical organization that wants to begin genetic testing to support earlier research for which they have performed a DPIA.
- B. A data controller who plans to use a new technology product that has already undergone a DPIA by the product's provider.
- C. A marketing team that wants to collect mailing addresses of customers for whom they already have email addresses.
- D. A railway operator who plans to evaluate the same video surveillance in all the train stations of his company.

Answer: D

NEW QUESTION 131

SCENARIO

Please use the following to answer the next question:

Joe started the Gummy Bear Company in 2000 from his home in Vermont, USA. Today, it is a multi-billion-dollar candy company operating in every continent. All of the company's IT servers are located in Vermont. This year Joe hires his son Ben to join the company and head up Project Big, which is a major marketing strategy to triple gross revenue in just 5 years. Ben graduated with a PhD in computer software from a top university. Ben decided to join his father's company, but is also secretly working on launching a new global online dating website company called Ben Knows Best.

Ben is aware that the Gummy Bear Company has millions of customers and believes that many of them might also be interested in finding their perfect match. For Project Big, Ben redesigns the company's online web portal and requires customers in the European Union and elsewhere to provide additional personal information in order to remain a customer. Project Ben begins collecting data about customers' philosophical beliefs, political opinions and marital status.

If a customer identifies as single, Ben then copies all of that customer's personal data onto a separate database for Ben Knows Best. Ben believes that he is not doing anything wrong, because he explicitly asks each customer to give their consent by requiring them to check a box before accepting their information. As Project Big is an important project, the company also hires a first year college student named Sam, who is studying computer science to help Ben out.

Ben calls out and Sam comes across the Ben Knows Best database. Sam is planning on going to Ireland over Spring Break with 10 of his friends, so he copies all of the customer information of people that reside in Ireland so that he and his friends can contact people when they are in Ireland.

Joe also hires his best friend's daughter, Alice, who just graduated from law school in the U.S., to be the company's new General Counsel. Alice has heard about the GDPR, so she does some research on it. Alice approaches Joe and informs him that she has drafted up Binding Corporate Rules for everyone in the company to follow, as it is important for the company to have in place a legal mechanism to transfer data internally from the company's operations in the European Union to the U.S.

Joe believes that Alice is doing a great job, and informs her that she will also be in-charge of handling a major lawsuit that has been brought against the company in federal court in the U.S. To prepare for the lawsuit, Alice instructs the company's IT department to make copies of the computer hard drives from the entire global sales team, including the European Union, and send everything to her so that she can review everyone's information. Alice believes that Joe will be happy that she did the first level review, as it will save the company a lot of money that would otherwise be paid to its outside law firm.

As a result of Sam's actions, the Gummy Bear Company potentially violated Articles 33 and 34 of the GDPR and will be required to do what?

- A. Notify its Data Protection Authority about the data breach.
- B. Analyze and evaluate the liability for customers in Ireland.
- C. Analyze and evaluate all of its breach notification obligations.
- D. Notify all of its customers that reside in the European Union.

Answer: A

NEW QUESTION 133

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data.

Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

In which of the following situations would ABC Hotel Chain and XYZ Travel Agency NOT have to honor Mike's data access request?

- A. The request is to obtain access and correct inaccurate personal data in his profile.
- B. The request is to obtain access and information about the purpose of processing his personal data.
- C. The request is to obtain access and erasure of his personal data while keeping his rewards membership.
- D. The request is to obtain access and the categories of recipients who have received his personal data to process his rewards membership.

Answer: C

NEW QUESTION 136

When collecting personal data in a European Union (EU) member state, what must a company do if it collects personal data from a source other than the data subjects themselves?

- A. Inform the subjects about the collection
- B. Provide a public notice regarding the data
- C. Upgrade security to match that of the source
- D. Update the data within a reasonable timeframe

Answer: A

NEW QUESTION 139

A company in France suffers a robbery over the weekend owing to a faulty alarm system. When it is determined that the break-in involves the loss of a substantial amount of data, the company decides on a CCTV system to monitor for future incidents. Company technicians install cameras in the entrance of the building, hallways and offices. Footage is recorded continuously, and is monitored by the home office in the United States. What is the most realistic step the company could take to address their security concerns and comply with the personal data processing principles set out in Article 5 of the GDPR?

- A. Seek informed consent from company employees.
- B. Have cameras recording during work hours only.
- C. Retain captured footage for no more than 30 days.
- D. Restrict camera placement to building entrances only.

Answer: A

NEW QUESTION 144

What should a controller do after a data subject opts out of a direct marketing activity?

- A. Without exception, securely delete all personal data relating to the data subject.
- B. Without undue delay, provide information to the data subject on the action that will be taken.
- C. Refrain from processing personal data relating to the data subject for the relevant type of communication.
- D. Take reasonable steps to inform third-party recipients that the data subject's personal data should be deleted and no longer processed.

Answer: C

NEW QUESTION 148

Under the GDPR, where personal data is not obtained directly from the data subject, a controller is exempt from directly providing information about processing to the data subject if?

- A. The data subject already has information regarding how his data will be used
- B. The provision of such information to the data subject would be too problematic
- C. Third-party data would be disclosed by providing such information to the data subject
- D. The processing of the data subject's data is protected by appropriate technical measures

Answer: A

NEW QUESTION 149

Which of the following would require designating a data protection officer?

- A. Processing is carried out by an organization employing 250 persons or more.
- B. Processing is carried out for the purpose of providing for-profit goods or services to individuals in the EU.
- C. The core activities of the controller or processor consist of processing operations of financial information or information relating to children.
- D. The core activities of the controller or processor consist of processing operations that require systematic monitoring of data subjects on a large scale.

Answer: D

NEW QUESTION 151

If a data subject puts a complaint before a DPA and receives no information about its progress or outcome, how long does the data subject have to wait before taking action in the courts?

- A. 1 month.
- B. 3 months.
- C. 5 months.
- D. 12 months.

Answer: B

NEW QUESTION 152

Which GDPR principle would a Spanish employer most likely depend upon to annually send the personal data of its employees to the national tax authority?

- A. The consent of the employees.
- B. The legal obligation of the employer.
- C. The legitimate interest of the public administration.
- D. The protection of the vital interest of the employees.

Answer: B

NEW QUESTION 157

Under Article 21 of the GDPR, a controller must stop profiling when requested by a data subject, unless it can demonstrate compelling legitimate grounds that override the interests of the individual. In the Guidelines on Automated individual decision-making and Profiling, the WP 29 says the controller needs to do all of the following to demonstrate that it has such legitimate grounds EXCEPT?

- A. Carry out an exercise that weighs the interests of the controller and the basis for the data subject's objection.
- B. Consider the impact of the profiling on the data subject's interest, rights and freedoms.
- C. Demonstrate that the profiling is for the purposes of direct marketing.
- D. Consider the importance of the profiling to their particular objective.

Answer: C

NEW QUESTION 160

An organization receives a request multiple times from a data subject seeking to exercise his rights with respect to his own personal data. Under what condition can the organization charge the data subject a fee for processing the request?

- A. Only where the organization can show that it is reasonable to do so because more than one request was made.
- B. Only to the extent this is allowed under the restrictions on data subjects' rights introduced under Art 23 of GDPR.
- C. Only where the administrative costs of taking the action requested exceeds a certain threshold.
- D. Only if the organization can demonstrate that the request is clearly excessive or misguided.

Answer: B

NEW QUESTION 163

SCENARIO

Please use the following to answer the next question:

Javier is a member of the fitness club EVERFIT. This company has branches in many EU member states, but for the purposes of the GDPR maintains its primary establishment in France. Javier lives in Newry, Northern Ireland (part of the U.K.), and commutes across the border to work in Dundalk, Ireland. Two years ago while on a business trip, Javier was photographed while working out at a branch of EVERFIT in Frankfurt, Germany. At the time, Javier gave his consent to being included in the photograph, since he was told that it would be used for promotional purposes only. Since then, the photograph has been used in the club's U.K. brochures, and it features in the landing page of its U.K. website. However, the fitness club has recently fallen into disrepute due to widespread mistreatment of members at various branches of the club in several EU member states. As a result, Javier no longer feels comfortable with his photograph being publicly associated with the fitness club.

After numerous failed attempts to book an appointment with the manager of the local branch to discuss this matter, Javier sends a letter to EVETFIT requesting that his image be removed from the website and all promotional materials. Months pass and Javier, having received no acknowledgment of his request, becomes very anxious about this matter. After repeatedly failing to contact EVETFIT through alternate channels, he decides to take action against the company.

Javier contacts the U.K. Information Commissioner's Office ('ICO' – the U.K.'s supervisory authority) to lodge a complaint about this matter. The ICO, pursuant to Article 56 (3) of the GDPR, informs the CNIL (i.e. the supervisory authority of EVERFIT's main establishment) about this matter. Despite the fact that EVERFIT has an establishment in the U.K., the CNIL decides to handle the case in accordance with Article 60 of the GDPR. The CNIL liaises with the ICO, as relevant under the cooperation procedure. In light of issues amongst the supervisory authorities to reach a decision, the European Data Protection Board becomes involved and, pursuant to the consistency mechanism, issues a binding decision.

Additionally, Javier sues EVERFIT for the damages caused as a result of its failure to honor his request to have his photograph removed from the brochure and website.

Assuming that multiple EVETFIT branches across several EU countries are acting as separate data controllers, and that each of those branches were responsible for mishandling Javier's request, how may Javier proceed in order to seek compensation?

- A. He will have to sue the EVETFIT's head office in France, where EVETFIT has its main establishment.
- B. He will be able to sue any one of the relevant EVETFIT branches, as each one may be held liable for the entire damage.
- C. He will have to sue each EVETFIT branch so that each branch provides proportionate compensation commensurate with its contribution to the damage or distress suffered by Javier.
- D. He will be able to apply to the European Data Protection Board in order to determine which particular EVETFIT branch is liable for damages, based on the decision that was made by the board.

Answer: A

NEW QUESTION 164

SCENARIO

Please use the following to answer the next question:

Javier is a member of the fitness club EVERFIT. This company has branches in many EU member states, but for the purposes of the GDPR maintains its primary establishment in France. Javier lives in Newry, Northern Ireland (part of the U.K.), and commutes across the border to work in Dundalk, Ireland. Two years ago while on a business trip, Javier was photographed while working out at a branch of EVERFIT in Frankfurt, Germany. At the time, Javier gave his consent to being included in the photograph, since he was told that it would be used for promotional purposes only. Since then, the photograph has been used in the club's U.K. brochures, and it features in the landing page of its U.K. website. However, the fitness club has recently fallen into disrepute due to widespread mistreatment of members at various branches of the club in several EU member states. As a result, Javier no longer feels comfortable with his photograph being publicly associated with the fitness club.

After numerous failed attempts to book an appointment with the manager of the local branch to discuss this matter, Javier sends a letter to EVETFIT requesting that his image be removed from the website and all promotional materials. Months pass and Javier, having received no acknowledgment of his request, becomes very anxious about this matter. After repeatedly failing to contact EVETFIT through alternate channels, he decides to take action against the company.

Javier contacts the U.K. Information Commissioner's Office ('ICO' – the U.K.'s supervisory authority) to lodge a complaint about this matter. The ICO, pursuant to Article 56 (3) of the GDPR, informs the CNIL (i.e. the supervisory authority of EVERFIT's main establishment) about this matter. Despite the fact that EVERFIT has an establishment in the U.K., the CNIL decides to handle the case in accordance with Article 60 of the GDPR. The CNIL liaises with the ICO, as relevant under the cooperation procedure. In light of issues amongst the supervisory authorities to reach a decision, the European Data Protection Board becomes involved and, pursuant to the consistency mechanism, issues a binding decision.

Additionally, Javier sues EVERFIT for the damages caused as a result of its failure to honor his request to have his photograph removed from the brochure and website.

Under the cooperation mechanism, what should the lead authority (the CNIL) do after it has formed its view on the matter?

- A. Submit a draft decision to other supervisory authorities for their opinion.
- B. Request that the other supervisory authorities provide the lead authority with a draft decision for its consideration.
- C. Submit a draft decision directly to the Commission to ensure the effectiveness of the consistency mechanism.
- D. Request that members of the seconding supervisory authority and the host supervisory authority co-draft a decision.

Answer: B

NEW QUESTION 165

SCENARIO

Please use the following to answer the next question:

Due to rapidly expanding workforce, Company A has decided to outsource its payroll function to Company B. Company B is an established payroll service provider with a sizable client base and a solid reputation in the industry.

Company B's payroll solution for Company A relies on the collection of time and attendance data obtained via a biometric entry system installed in each of Company A's factories. Company B won't hold any biometric data itself, but the related data will be uploaded to Company B's UK servers and used to provide the payroll service. Company B's live systems will contain the following information for each of Company A's employees:

Name
Address
Date of Birth
Payroll number
National Insurance number
Sick pay entitlement
Maternity/paternity pay entitlement
Holiday entitlement
Pension and benefits contributions
Trade union contributions

Jenny is the compliance officer at Company A. She first considers whether Company A needs to carry out a data protection impact assessment in relation to the new time and attendance system, but isn't sure whether or not this is required.

Jenny does know, however, that under the GDPR there must be a formal written agreement requiring Company B to use the time and attendance data only for the purpose of providing the payroll service, and to apply appropriate technical and organizational security measures for safeguarding the data. Jenny suggests that Company B obtain advice from its data protection officer. The company doesn't have a DPO but agrees, in the interest of finalizing the contract, to sign up for the

provisions in full. Company A enters into the contract.

Weeks later, while still under contract with Company A, Company B embarks upon a separate project meant to enhance the functionality of its payroll service, and engages Company C to help. Company C agrees to extract all personal data from Company B's live systems in order to create a new database for Company B. This database will be stored in a test environment hosted on Company C's U.S. server. The two companies agree not to include any data processing provisions in their services agreement, as data is only being used for IT testing purposes.

Unfortunately, Company C's U.S. server is only protected by an outdated IT security system, and suffers a cyber security incident soon after Company C begins work on the project. As a result, data relating to Company A's employees is visible to anyone visiting Company C's website. Company A is unaware of this until Jenny receives a letter from the supervisory authority in connection with the investigation that ensues. As soon as Jenny is made aware of the breach, she notifies all affected employees.

The GDPR requires sufficient guarantees of a company's ability to implement adequate technical and organizational measures. What would be the most realistic way that Company B could have fulfilled this requirement?

- A. Hiring companies whose measures are consistent with recommendations of accrediting bodies.
- B. Requesting advice and technical support from Company A's IT team.
- C. Avoiding the use of another company's data to improve their own services.
- D. Vetting companies' measures with the appropriate supervisory authority.

Answer: A

NEW QUESTION 169

SCENARIO

Please use the following to answer the next question:

Zandelay Fashion ('Zandelay') is a successful international online clothing retailer that employs approximately 650 people at its headquarters based in Dublin, Ireland. Martin is their recently appointed data protection officer, who oversees the company's compliance with the General Data Protection Regulation (GDPR) and other privacy legislation.

The company offers both male and female clothing lines across all age demographics, including children. In doing so, the company processes large amounts of information about such customers, including preferences and sensitive financial information such as credit card and bank account numbers.

In an aggressive bid to build revenue growth, Jerry, the CEO, tells Martin that the company is launching a new mobile app and loyalty scheme that puts significant emphasis on profiling the company's customers by analyzing their purchases. Martin tells the CEO that: (a) the potential risks of such activities means that Zandelay needs to carry out a data protection impact assessment to assess this new venture and its privacy implications; and (b) where the results of this assessment indicate a high risk in the absence of appropriate protection measures, Zandelay may have to undertake a prior consultation with the Irish Data Protection Commissioner before implementing the app and loyalty scheme.

Jerry tells Martin that he is not happy about the prospect of having to directly engage with a supervisory authority and having to disclose details of Zandelay's business plan and associated processing activities.

What would MOST effectively assist Zandelay in conducting their data protection impact assessment?

- A. Information about DPIAs found in Articles 38 through 40 of the GDPR.
- B. Data breach documentation that data controllers are required to maintain.
- C. Existing DPIA guides published by local supervisory authorities.
- D. Records of processing activities that data controllers are required to maintain.

Answer: A

NEW QUESTION 170

SCENARIO

Please use the following to answer the next question:

T-Craze, a German-headquartered specialty t-shirt company, was successfully selling to large German metropolitan cities. However, after a recent merger with another German-based company that was selling to a broader European market, T-Craze revamped its marketing efforts to sell to a wider audience. These efforts included a complete redesign of its logo to reflect the recent merger, and improvements to its website meant to capture more information about visitors through the use of cookies.

T-Craze also opened various office locations throughout Europe to help expand its business. While Germany continued to host T-Craze's headquarters and main product-design office, its French affiliate became responsible for all marketing and sales activities. The French affiliate recently procured the services of Right Target, a renowned marketing firm based in the Philippines, to run its latest marketing campaign. After thorough research, Right Target determined that T-Craze is most successful with customers between the ages of 18 and 22. Thus, its first campaign targeted university students in several European capitals, which yielded nearly 40% new customers for T-Craze in one quarter. Right Target also ran subsequent campaigns for T-Craze, though with much less success.

The last two campaigns included a wider demographic group and resulted in countless unsubscribe requests, including a large number in Spain. In fact, the Spanish data protection authority received a complaint from Sofia, a mid-career investment banker. Sofia was upset after receiving a marketing communication even after unsubscribing from such communications from the Right Target on behalf of T-Craze.

Why does the Spanish supervisory authority notify the French supervisory authority when it opens an investigation into T-Craze based on Sofia's complaint?

- A. T-Craze has a French affiliate.
- B. The French affiliate procured the services of Right Target.
- C. T-Craze conducts its marketing and sales activities in France.
- D. The Spanish supervisory authority is providing a courtesy notification not required under the GDPR.

Answer: C

NEW QUESTION 171

A worker in a European Union (EU) member state has ceased his employment with a company. What should the employer most likely do in regard to the worker's personal data?

- A. Destroy sensitive information and store the rest per applicable data protection rules.
- B. Store all of the data in case the departing worker makes a subject access request.
- C. Securely store the data that is required to be kept under local law.
- D. Provide the employee the reasons for retaining the data.

Answer: A

NEW QUESTION 176

Which GDPR requirement will present the most significant challenges for organizations with Bring Your Own Device (BYOD) programs?

- A. Data subjects must be sufficiently informed of the purposes for which their personal data is processed.
- B. Processing of special categories of personal data on a large scale requires appointing a DPO.
- C. Personal data of data subjects must always be accurate and kept up to date.
- D. Data controllers must be in control of the data they hold at all times.

Answer: D

NEW QUESTION 177

When assessing the level of risk created by a data breach, which of the following would NOT have to be taken into consideration?

- A. The ease of identification of individuals.
- B. The size of any data processor involved.
- C. The special characteristics of the data controller.
- D. The nature, sensitivity and volume of personal data.

Answer: B

NEW QUESTION 178

SCENARIO

Please use the following to answer the next question:

Louis, a long-time customer of Bedrock Insurance, was involved in a minor car accident a few months ago. Although no one was hurt, Louis has been plagued by texts and calls from a company called Accidentable offering to help him recover compensation for personal injury. Louis has heard about insurance companies selling customers' data to third parties, and he's convinced that Accidentable must have gotten his information from Bedrock Insurance.

Louis has also been receiving an increased amount of marketing information from Bedrock, trying to sell him their full range of their insurance policies.

Perturbed by this, Louis has started looking at price comparison sites on the internet and has been shocked to find that other insurers offer much cheaper rates than Bedrock, even though he has been a loyal customer for many years. When his Bedrock policy comes up for renewal, he decides to switch to Zantrum Insurance.

In order to activate his new insurance policy, Louis needs to supply Zantrum with information about his No Claims bonus, his vehicle and his driving history. After researching his rights under the GDPR, he writes to ask Bedrock to transfer his information directly to Zantrum. He also takes this opportunity to ask Bedrock to stop using his personal data for marketing purposes.

Bedrock supplies Louis with a PDF and XML (Extensible Markup Language) versions of his No Claims Certificate, but tells Louis it cannot transfer his data directly to Zantrum as this is not technically feasible. Bedrock also explains that Louis's contract included a provision whereby Louis agreed that his data could be used for marketing purposes; according to Bedrock, it is too late for Louis to change his mind about this. It angers Louis when he recalls the wording of the contract, which was filled with legal jargon and very confusing.

In the meantime, Louis is still receiving unwanted calls from Accidentable Insurance. He writes to Accidentable to ask for the name of the organization that supplied his details to them. He warns Accidentable that he plans to complain to the data protection authority, because he thinks their company has been using his data unlawfully. His letter states that he does not want his data being used by them in any way.

Accidentable's response letter confirms Louis's suspicions. Accidentable is Bedrock Insurance's wholly owned subsidiary, and they received information about Louis's accident from Bedrock shortly after Louis submitted his accident claim. Accidentable assures Louis that there has been no breach of the GDPR, as Louis's contract included, a provision in which he agreed to share his information with Bedrock's affiliates for business purposes.

Louis is disgusted by the way in which he has been treated by Bedrock, and writes to them insisting that all his information be erased from their computer system.

Which statement accurately summarizes Bedrock's obligation in regard to Louis's data portability request?

- A. Bedrock does not have a duty to transfer Louis's data to Zantrum if doing so is legitimately not technically feasible.
- B. Bedrock does not have to transfer Louis's data to Zantrum because the right to data portability does not apply where personal data are processed in order to carry out tasks in the public interest.
- C. Bedrock has failed to comply with the duty to transfer Louis's data to Zantrum because the duty applies wherever personal data are processed by automated means and necessary for the performance of a contract with the customer.
- D. Bedrock has failed to comply with the duty to transfer Louis's data to Zantrum because it has an obligation to develop commonly used, machine-readable and interoperable formats so that all customer data can be ported to other insurers on request.

Answer: B

NEW QUESTION 179

Which of the following is NOT a role of works councils?

- A. Determining the monetary fines to be levied against employers for data breach violations of employee data.
- B. Determining whether to approve or reject certain decisions of the employer that affect employees.
- C. Determining whether employees' personal data can be processed or not.
- D. Determining what changes will affect employee working conditions.

Answer: C

NEW QUESTION 184

What was the aim of the European Data Protection Directive 95/46/EC?

- A. To harmonize the implementation of the European Convention of Human Rights across all member states.
- B. To implement the OECD Guidelines on the Protection of Privacy and trans-border flows of Personal Data.
- C. To completely prevent the transfer of personal data out of the European Union.
- D. To further reconcile the protection of the fundamental rights of individuals with the free flow of data from one member state to another.

Answer: B

NEW QUESTION 188

What permissions are required for a marketer to send an email marketing message to a consumer in the EU?

- A. A prior opt-in consent for consumers unless they are already customers.
- B. A pre-checked box stating that the consumer agrees to receive email marketing.
- C. A notice that the consumer's email address will be used for marketing purposes.
- D. No prior permission required, but an opt-out requirement on all emails sent to consumers.

Answer: A

NEW QUESTION 191

Which of the following is NOT an explicit right granted to data subjects under the GDPR?

- A. The right to request access to the personal data a controller holds about them.
- B. The right to request the deletion of data a controller holds about them.
- C. The right to opt-out of the sale of their personal data to third parties.
- D. The right to request restriction of processing of personal data, under certain scenarios.

Answer: A

NEW QUESTION 195

The Planet 49 CJEU Judgement applies to?

- A. Cookies used only by third parties.
- B. Cookies that are deemed technically necessary.
- C. Cookies regardless of whether the data accessed is personal or not.
- D. Cookies where the data accessed is considered as personal data only.

Answer: C

NEW QUESTION 199

SCENARIO

Please use the following to answer the next question:

BHealthy, a company based in Italy, is ready to launch a new line of natural products, with a focus on sunscreen. The last step prior to product launch is for BHealthy to conduct research to decide how extensively to market its new line of sunscreens across Europe. To do so, BHealthy teamed up with Natural Insight, a company specializing in determining pricing for natural products. BHealthy decided to share its existing customer information – name, location, and prior purchase history – with Natural Insight. Natural Insight intends to use this information to train its algorithm to help determine the price point at which BHealthy can sell its new sunscreens.

Prior to sharing its customer list, BHealthy conducted a review of Natural Insight's security practices and concluded that the company has sufficient security measures to protect the contact information. Additionally, BHealthy's data processing contractual terms with Natural Insight require continued implementation of technical and organization measures. Also indicated in the contract are restrictions on use of the data provided by BHealthy for any purpose beyond provision of the services, which include use of the data for continued improvement of Natural Insight's machine learning algorithms.

Under the GDPR, what are Natural Insight's security obligations with respect to the customer information it received from BHealthy?

- A. Appropriate security that takes into account the industry practices for protecting customer contact information and purchase history.
- B. Only the security measures assessed by BHealthy prior to entering into the data processing contract.
- C. Absolute security since BHealthy is sharing personal data, including purchase history, with Natural Insight.
- D. The level of security that a reasonable data subject whose data is processed would expect in relation to the data subject's purchase history.

Answer: A

NEW QUESTION 204

For which of the following operations would an employer most likely be justified in requesting the data subject's consent?

- A. Posting an employee's bicycle race photo on the company's social media.
- B. Processing an employee's health certificate in order to provide sick leave.
- C. Operating a CCTV system on company premises.
- D. Assessing a potential employee's job application.

Answer: A

NEW QUESTION 207

Under what circumstances would the GDPR apply to personal data that exists in physical form, such as information contained in notebooks or hard copy files?

- A. Only where the personal data is produced as a physical output of specific automated processing activities, such as printing, labelling, or stamping.
- B. Only where the personal data is to be subjected to specific computerized processing, such as image scanning or optical character recognition.
- C. Only where the personal data is treated by automated means in some way, such as computerized distribution or filing.
- D. Only where the personal data is handled in a sufficiently structured manner so as to form part of a filing system.

Answer: D

NEW QUESTION 209

What is true if an employee makes an access request to his employer for any personal data held about him?

- A. The employer can automatically decline the request if it contains personal data about a third person.
- B. The employer can decline the request if the information is only held electronically.
- C. The employer must supply all the information held about the employee.
- D. The employer must supply any information held about an employee unless an exemption applies.

Answer: D

NEW QUESTION 214

A key component of the OECD Guidelines is the “Individual Participation Principle”. What parts of the General Data Protection Regulation (GDPR) provide the closest equivalent to that principle?

- A. The lawful processing criteria stipulated by Articles 6 to 9
- B. The information requirements set out in Articles 13 and 14
- C. The breach notification requirements specified in Articles 33 and 34
- D. The rights granted to data subjects under Articles 12 to 22

Answer: D

NEW QUESTION 218

A data controller appoints a data protection officer. Which of the following conditions would NOT result in an infringement of Articles 37 to 39 of the GDPR?

- A. If the data protection officer lacks ISO 27001 auditor certification.
- B. If the data protection officer is provided by the data processor.
- C. If the data protection officer also manages the marketing budget.
- D. If the data protection officer receives instructions from the data controller.

Answer: D

NEW QUESTION 220

A Spanish electricity customer calls her local supplier with Questions: about the company’s upcoming merger. Specifically, the customer wants to know the recipients to whom her personal data will be disclosed once the merger is final. According to Article 13 of the GDPR, what must the company do before providing the customer with the requested information?

- A. Verify that the request is applicable to the data collected before the GDPR entered into force.
- B. Verify that the purpose of the request from the customer is in line with the GDPR.
- C. Verify that the personal data has not already been sent to the customer.
- D. Verify that the identity of the customer can be proven by other means.

Answer: A

NEW QUESTION 224

Which of the following Convention 108+ principles, as amended in 2018, is NOT consistent with a principle found in the GDPR?

- A. The obligation of companies to declare data breaches.
- B. The requirement to demonstrate compliance to a supervisory authority.
- C. The necessity of the bulk collection of personal data by the government.

Answer: B

NEW QUESTION 227

Which of the following is one of the supervisory authority’s investigative powers?

- A. To notify the controller or the processor of an alleged infringement of the GDPR.
- B. To require that controllers or processors adopt approved data protection certification mechanisms.
- C. To determine whether a controller or processor has the right to a judicial remedy concerning a compensation decision made against them.
- D. To require data controllers to provide them with written notification of all new processing activities.

Answer: A

NEW QUESTION 228

Under Article 30 of the GDPR, controllers are required to keep records of all of the following EXCEPT?

- A. Incidents of personal data breaches, whether disclosed or not.
- B. Data inventory or data mapping exercises that have been conducted.
- C. Categories of recipients to whom the personal data have been disclosed.
- D. Retention periods for erasure and deletion of categories of personal data.

Answer: D

NEW QUESTION 231

When is data sharing agreement MOST likely to be needed?

- A. When anonymized data is being shared.
- B. When personal data is being shared between commercial organizations acting as joint data controllers.
- C. When personal data is being proactively shared by a controller to support a police investigation.
- D. When personal data is being shared with a public authority with powers to require the personal data to be disclosed.

Answer: B

NEW QUESTION 233

SCENARIO

Please use the following to answer the next question:

Building Block Inc. is a multinational company, headquartered in Chicago with offices throughout the United States, Asia, and Europe (including Germany, Italy, France and Portugal). Last year the company was the victim of a phishing attack that resulted in a significant data breach. The executive board, in coordination with the general manager, their Privacy Office and the Information Security team, resolved to adopt additional security measures. These included training awareness programs, a cybersecurity audit, and use of a new software tool called SecurityScan, which scans employees' computers to see if they have software that is no longer being supported by a vendor and therefore not getting security updates. However, this software also provides other features, including the monitoring of employees' computers.

Since these measures would potentially impact employees, Building Block's Privacy Office decided to issue a general notice to all employees indicating that the company will implement a series of initiatives to enhance information security and prevent future data breaches.

After the implementation of these measures, server performance decreased. The general manager instructed the Security team on how to use SecurityScan to monitor employees' computers activity and their location. During these activities, the Information Security team discovered that one employee from Italy was daily connecting to a video library of movies, and another one from Germany worked remotely without authorization. The Security team reported these incidents to the Privacy Office and the general manager. In their report, the team concluded that the employee from Italy was the reason why the server performance decreased. Due to the seriousness of these infringements, the company decided to apply disciplinary measures to both employees, since the security and privacy policy of the company prohibited employees from installing software on the company's computers, and from working remotely without authorization.

In addition to notifying employees about the purpose of the monitoring, the potential uses of their data and their privacy rights, what information should Building Block have provided them before implementing the security measures?

- A. Information about what is specified in the employment contract.
- B. Information about who employees should contact with any queries.
- C. Information about how providing consent could affect them as employees.
- D. Information about how the measures are in the best interests of the company.

Answer: A

NEW QUESTION 238

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data.

Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

What is the time period in which Mike should receive a response to his request?

- A. Not more than one month of receipt of Mike's request.
- B. Not more than two months after verifying Mike's identity.
- C. When all the information about Mike has been collected.
- D. Not more than thirty days after submission of Mike's request.

Answer: D

NEW QUESTION 240

Which sentence BEST summarizes the concepts of "fairness," "lawfulness" and "transparency", as expressly required by Article 5 of the GDPR?

- A. Fairness and transparency refer to the communication of key information before collecting data; lawfulness refers to compliance with government regulations.
- B. Fairness refers to limiting the amount of data collected from individuals; lawfulness refers to the approval of company guidelines by the state; transparency solely relates to communication of key information before collecting data.
- C. Fairness refers to the security of personal data; lawfulness and transparency refers to the analysis of ordinances to ensure they are uniformly enforced.
- D. Fairness refers to the collection of data from diverse subjects; lawfulness refers to the need for legal rules to be uniform; transparency refers to giving individuals access to their data.

Answer: A

NEW QUESTION 243

Which of the following would NOT be relevant when determining if a processing activity would be considered profiling?

- A. If the processing is to be performed by a third-party vendor
- B. If the processing involves data that is considered personal data
- C. If the processing of the data is done through automated means
- D. If the processing is used to predict the behavior of data subjects

Answer: D

NEW QUESTION 247

SCENARIO

Please use the following to answer the next question:

The fitness company Vigotron has recently developed a new app called M-Health, which it wants to market on its website as a free download. Vigotron's marketing manager asks his assistant Emily to create a webpage that describes the app and specifies the terms of use. Emily, who is new at Vigotron, is excited about this task. At her previous job she took a data protection class, and though the details are a little hazy, she recognizes that Vigotron is going to need to obtain user consent for use of the app in some cases. Emily sketches out the following draft, trying to cover as much as possible before sending it to Vigotron's legal department.

Registration Form

Vigotron's new M-Health app makes it easy for you to monitor a variety of health-related activities, including diet, exercise, and sleep patterns. M-Health relies on your smartphone settings (along with other third-party apps you may already have) to collect data about all of these important lifestyle elements, and provide the information necessary for you to enrich your quality of life. (Please click here to read a full description of the services that M-Health provides.)

Vigotron values your privacy. The M-Health app allows you to decide which information is stored in it, and which apps can access your data. When your device is locked with a passcode, all of your health and fitness data is encrypted with your passcode. You can back up data stored in the Health app to Vigotron's cloud provider, Stratculous. (Read more about Stratculous here.)

Vigotron will never trade, rent or sell personal information gathered from the M-Health app. Furthermore, we will not provide a customer's name, email address or any other information gathered from the app to any third- party without a customer's consent, unless ordered by a court, directed by a subpoena, or to enforce the manufacturer's legal rights or protect its business or property.

We are happy to offer the M-Health app free of charge. If you want to download and use it, we ask that you first complete this registration form. (Please note that use of the M-Health app is restricted to adults aged 16 or older, unless parental consent has been given to minors intending to use it.)

First name:

Surname:

Year of birth:

Email:

Physical Address (optional*):

Health status:

*If you are interested in receiving newsletters about our products and services that we think may be of interest to you, please include your physical address. If you decide later that you do not wish to receive these newsletters, you can unsubscribe by sending an email to unsubscribe@vigotron.com or send a letter with your request to the address listed at the bottom of this page.

Terms and Conditions 1.Jurisdiction. [...] 2.Applicable law. [...] 3.Limitation of liability. [...] Consent

By completing this registration form, you attest that you are at least 16 years of age, and that you consent to the processing of your personal data by Vigotron for the purpose of using the M-Health app. Although you are entitled to opt out of any advertising or marketing, you agree that Vigotron may contact you or provide you with any required notices, agreements, or other information concerning the services by email or other electronic means. You also agree that the Company may send automated emails with alerts regarding any problems with the M-Health app that may affect your well being.

Emily sends the draft to Sam for review. Which of the following is Sam most likely to point out as the biggest problem with Emily's consent provision?

- A. It is not legal to include fields requiring information regarding health status without consent.
- B. Processing health data requires explicit consent, but the form does not ask for explicit consent.
- C. Direct marketing requires explicit consent, whereas the registration form only provides for a right to object
- D. The provision of the fitness app should be made conditional on the consent to the data processing for direct marketing.

Answer: C

NEW QUESTION 250

What is the key difference between the European Council and the Council of the European Union?

- A. The Council of the European Union is helmed by a president.
- B. The Council of the European Union has a degree of legislative power.
- C. The European Council focuses primarily on issues involving human rights.
- D. The European Council is comprised of the heads of each EU member state.

Answer: D

NEW QUESTION 255

Based on GDPR Article 35, which of the following situations would trigger the need to complete a DPIA?

- A. A company wants to combine location data with other data in order to offer more personalized service for the customer.
- B. A company wants to use location data to infer information on a person's clothes purchasing habits.
- C. A company wants to build a dating app that creates candidate profiles based on location data and data from third-party sources.
- D. A company wants to use location data to track delivery trucks in order to make the routes more efficient.

Answer: C

NEW QUESTION 259

SCENARIO

Please use the following to answer the next question:

TripBliss Inc. is a travel service company which has lost substantial revenue over the last few years. Their new manager, Oliver, suspects that this is partly due to the company's outdated website. After doing some research, he meets with a sales representative from the up-and-coming IT company Techiva, hoping that they can design a new, cutting-edge website for TripBliss Inc.'s foundering business.

During negotiations, a Techiva representative describes a plan for gathering more customer information through detailed Questionnaires, which could be used to tailor their preferences to specific travel destinations. TripBliss Inc. can choose any number of data categories – age, income, ethnicity – that would help them best accomplish their goals. Oliver loves this idea, but would also like to have some way of gauging how successful this approach is, especially since the Questionnaires will require customers to provide explicit consent to having their data collected. The Techiva representative suggests that they also run a program to analyze the new website's traffic, in order to get a better understanding of how customers are using it. He explains his plan to place a number of cookies on customer devices. The cookies will allow the company to collect IP addresses and other information, such as the sites from which the customers came, how much time they spend on the TripBliss Inc. website, and which pages on the site they visit. All of this information will be compiled in log files, which Techiva will analyze by means of a special program. TripBliss Inc. would receive aggregate statistics to help them evaluate the website's effectiveness. Oliver enthusiastically engages Techiva for these services.

Techiva assigns the analytics portion of the project to longtime account manager Leon Santos. As is standard practice, Leon is given administrator rights to TripBliss Inc.'s website, and can authorize access to the log files gathered from it. Unfortunately for TripBliss Inc., however, Leon is taking on this new project at a time when his dissatisfaction with Techiva is at a high point. In order to take revenge for what he feels has been unfair treatment at the hands of the company, Leon asks his friend Fred, a hobby hacker, for help. Together they come up with the following plan: Fred will hack into Techiva's system and copy their log files onto a USB stick. Despite his initial intention to send the USB to the press and to the data protection authority in order to denounce Techiva, Leon experiences a crisis of conscience and ends up reconsidering his plan. He decides instead to securely wipe all the data from the USB stick and inform his manager that the company's system of access control must be reconsidered.

After Leon has informed his manager, what is Techiva's legal responsibility as a processor?

- A. They must report it to TripBliss Inc.
- B. They must conduct a full systems audit.
- C. They must report it to the supervisory authority.
- D. They must inform customers who have used the website.

Answer: B

NEW QUESTION 260

SCENARIO

Please use the following to answer the next question:

Joe started the Gummy Bear Company in 2000 from his home in Vermont, USA. Today, it is a multi-billion-dollar candy company operating in every continent. All of the company's IT servers are located in Vermont. This year Joe hires his son Ben to join the company and head up Project Big, which is a major marketing strategy to triple gross revenue in just 5 years. Ben graduated with a PhD in computer software from a top university. Ben decided to join his father's company, but is also secretly working on launching a new global online dating website company called Ben Knows Best.

Ben is aware that the Gummy Bear Company has millions of customers and believes that many of them might also be interested in finding their perfect match. For Project Big, Ben redesigns the company's online web portal and requires customers in the European Union and elsewhere to provide additional personal information in order to remain a customer. Project Ben begins collecting data about customers' philosophical beliefs, political opinions and marital status.

If a customer identifies as single, Ben then copies all of that customer's personal data onto a separate database for Ben Knows Best. Ben believes that he is not doing anything wrong, because he explicitly asks each customer to give their consent by requiring them to check a box before accepting their information. As Project Big is an important project, the company also hires a first year college student named Sam, who is studying computer science to help Ben out.

Ben calls out and Sam comes across the Ben Knows Best database. Sam is planning on going to Ireland over Spring Break with 10 of his friends, so he copies all of the customer information of people that reside in Ireland so that he and his friends can contact people when they are in Ireland.

Joe also hires his best friend's daughter, Alice, who just graduated from law school in the U.S., to be the company's new General Counsel. Alice has heard about the GDPR, so she does some research on it. Alice approaches Joe and informs him that she has drafted up Binding Corporate Rules for everyone in the company to follow, as it is important for the company to have in place a legal mechanism to transfer data internally from the company's operations in the European Union to the U.S.

Joe believes that Alice is doing a great job, and informs her that she will also be in-charge of handling a major lawsuit that has been brought against the company in federal court in the U.S. To prepare for the lawsuit, Alice instructs the company's IT department to make copies of the computer hard drives from the entire global sales team, including the European Union, and send everything to her so that she can review everyone's information. Alice believes that Joe will be happy that she did the first level review, as it will save the company a lot of money that would otherwise be paid to its outside law firm.

Ben's collection of additional data from customers created several potential issues for the company, which would most likely require what?

- A. New corporate governance and code of conduct.
- B. A data protection impact assessment.
- C. A comprehensive data inventory.
- D. Hiring a data protection officer.

Answer: A

NEW QUESTION 262

SCENARIO

Please use the following to answer the next question:

Dynaroux Fashion ('Dynaroux') is a successful international online clothing retailer that employs approximately 650 people at its headquarters based in Dublin, Ireland. Ronan is their recently appointed data protection officer, who oversees the company's compliance with the General Data Protection Regulation (GDPR) and other privacy legislation.

The company offers both male and female clothing lines across all age demographics, including children. In doing so, the company processes large amounts of information about such customers, including preferences and sensitive financial information such as credit card and bank account numbers.

In an aggressive bid to build revenue growth, Jonas, the CEO, tells Ronan that the company is launching a new mobile app and loyalty scheme that puts significant emphasis on profiling the company's customers by analyzing their purchases. Ronan tells the CEO that: (a) the potential risks of such activities means that

Dynaroux needs to carry out a data protection impact assessment to assess this new venture and its privacy implications; and (b) where the results of this assessment indicate a high risk in the absence of appropriate

protection measures, Dynaroux may have to undertake a prior consultation with the Irish Data Protection Commissioner before implementing the app and loyalty

scheme.

Jonas tells Ronan that he is not happy about the prospect of having to directly engage with a supervisory authority and having to disclose details of Dynaroux's business plan and associated processing activities.

Which of the following facts about Dynaroux would trigger a data protection impact assessment under the GDPR?

- A. The company will be undertaking processing activities involving sensitive data categories such as financial and children's data.
- B. The company employs approximately 650 people and will therefore be carrying out extensive processing activities.
- C. The company plans to undertake profiling of its customers through analysis of their purchasing patterns.
- D. The company intends to shift their business model to rely more heavily on online shopping.

Answer: C

NEW QUESTION 266

An organization conducts body temperature checks as a part of COVID-19 monitoring. Body temperature is measured manually and is not followed by registration, documentation or other processing of an individual's personal data.

Which of the following best explain why this practice would NOT be subject to the GDPR?

- A. Body temperature is not considered personal data.
- B. The practice does not involve completion by automated means.
- C. Body temperature is considered pseudonymous data.
- D. The practice is for the purpose of alleviating extreme risks to public health.

Answer: B
